## SIMMONS COLLEGE

**S**IMMONS COLLEGE is a Vocational College for women. The will of its founder, John Simmons, directed that the College should give instruction in "art, science, and industry best calculated to enable the scholars to acquire an independent livelihood." In pursuance of that trust the Corporation was organized in 1899, and the College was opened for instruction in 1902. Simmons College is on the approved list of the Association of American Universities.

The vocations for which the College prepares its students have been selected from the various occupations open to women, in accordance with two distinct principles. First, the vocations must be suitable for educated women, requiring such training as may be reasonably given in college; second, courses of study must be provided only in fields where the need is evident.

As a result of careful study and investigation the College has organized and developed courses of study for the preparation of secretaries, librarians, managers of institutions or lunch-rooms, dietitians, business accountants, landscape gardeners, laboratory assistants, teachers of household economics, of commercial subjects, of science, of needle arts, and of salesmanship, directors of physical education, social workers, educational directors in mercantile establishments, and public health nurses. Each of these vocations requires a specific technical preparation, which has resulted in the organization of the nine technical Schools that constitute the College.

During 1932-33 the registration in nine Schools was as follows: Household Economics, 229; Secretarial Studies, 427; Library Science, 233; General Science, 107; Social Work, 257; Physical Education, 8; Store Service Education, 53; Public Health Nursing, 267; Landscape Architecture, 8; total, 1,589. Among these students were 156 graduates of other colleges.

In addition to the students present during the regular session, there were 135 in the summer session of 1932, making a total of 1,724 students who registered for courses at Simmons College in 1932-33. Canal Zone, Virgin Islands, Canada, China, Greece, Holland, Poland, Sweden, and thirty-four of the United States were represented.

### ADMISSION

The requirements for admission to the first year of any of the four-year programmes or the five-year programmes at Simmons College are in general the subjects included in a four-year high school course of study. There are special conditions of admission for graduates of other colleges and for mature students who wish to pursue the briefer programmes. Detailed information concerning admission to the College may be found on page 28 ff.

### EXPENSES

The annual tuition fee for all regular students is \$250. The charges for residence in a College house vary from \$350 to \$500. There are other expenses, including the cost of laboratory fees and deposits in connection with some courses, books and papers, and luncheons if the student lives in one of the College houses in Brookline. These expenses are listed on page 82 ff.

### LOCATION

The main College building is situated in Boston near the southern end of The Fenway, facing the city. Behind the building is an athletic ground with provision for various outdoor activities. The principal dormitories are located about half a mile from the College. Detailed information regarding the College buildings may be found on page 71 ff.

## PLAN OF INSTRUCTION

THE courses of study offered in Simmons College are arranged in various programmes, with reference to the particular occupations for which the students are preparing. These programmes are grouped in nine Schools, as follows:

	PAGE
A. SCHOOL OF HOUSEHOLD ECONOMICS	35
B. SCHOOL OF SECRETARIAL STUDIES	40
C. SCHOOL OF LIBRARY SCIENCE	44
D. SCHOOL OF GENERAL SCIENCE	53
E. SCHOOL OF SOCIAL WORK	56
F. SCHOOL OF PHYSICAL EDUCATION	58
G. PRINCE SCHOOL OF STORE SERVICE EDUCATION	59
H. SCHOOL OF PUBLIC HEALTH NURSING	62
L. SCHOOL OF LANDSCAPE ARCHITECTURE	68

With the technical subjects essential to each programme are associated related academic subjects, in proportions which are designed to give a well-balanced training.

The plan of instruction provides complete programmes of four or five years for students who have fulfilled the requirements for admission. It affords one-year or two-year technical programmes for those who have had collegiate training elsewhere. More elementary programmes are also offered in the Schools of Household Economics and of Public Health Nursing to a limited number of properly qualified students. Under special conditions mature students may be received for instruction in subjects amounting to less than a complete programme. Summer courses are offered to properly qualified candidates.

The following programmes indicate the grouping of the subjects studied in the various Schools. Programmes leading to a degree may not be varied except by permission of the Faculty. In cases where an unrestricted elective is indicated, it may be any subject for which the student has the prerequisites.

## CONDITIONS OF ADMISSION

**E**VERY candidate for admission to Simmons College must make application on the form furnished by the Registrar of the College, and must meet the entrance requirements described below, including a certificate of honorable dismissal from the principal of the institution last attended, and also a satisfactory certificate of health for which the College provides a blank. The application is not registered unless it is accompanied by the required fee of ten dollars. This fee is deducted from the first tuition payment, but it is not returned if the application is withdrawn, or if the applicant is not able to meet the entrance requirements.

The number of students that can be admitted to any programme is definitely limited. The names of candidates are listed in the order of their formal applications. Candidates whose applications are received before the limiting number is reached are accepted provided they satisfy all entrance requirements before July 15. After July 15 the names of candidates are placed on the register of admissions in the order of the completion of the entrance requirements without reference to the order of their applications.

### I. REQUIREMENTS FOR ADMISSION TO THE FIRST-YEAR CLASS

Candidates for admission to the first-year class are required to present evidence of satisfactory preparation in certain subjects named below and defined by the College Entrance Examination Board. The College is glad to furnish information concerning any subjects which it accepts but which the Board does not describe. The evidence may be presented (A) by certificate; (B) by examination as explained on pages 30 ff.; or (C) by certificate in a part of the subjects and by examination in the remainder.

Preparation must amount to 15 units, distributed among the following subjects:

Prescribed subjects:	<i>units</i>
English	4 or 3 *
Foreign language	3 or 4 **
History	1
Algebra	1
Geometry	1

Electives to complete 15 units

Elective subjects:

Foreign language

History †

Mathematics

Specific sciences

Technical or general subjects † (not more than 4 units)

A *unit* represents a year's study in any subject in a secondary school constituting approximately a quarter of a full year's work. Not less than one-half a unit earned in one year is accepted in any subject.

Subjects not included in the examination lists of Simmons College may be offered only by certificate.

No deficiency in the number of entrance units is permitted; but for the present a candidate who presents a total of 15 units is admitted with two years of only one foreign language. Such a student must later pass an examination or take courses in language without credit.

A student who has offered two or more units in a subject which she continues in College is expected to enter an advanced course in that subject.

### (A) ADMISSION BY CERTIFICATE

The College receives as evidence of fitness for admission a certificate from the headmaster or principal of an approved

\* If offered by examination, 3 units only are allowed.

\*\* Two units of each of two foreign languages may be offered in place of 3 units of one foreign language.

† General History, World History, and half units of History, and General Science may be offered only as general subjects.

school in which the candidate has spent at least the fourth year of her preparation. The certificate must be submitted on the form furnished by the College.

The work should be distributed over the last four years of secondary school. The work of the last year in a junior high school may be accepted in place of that of the first year of a four-year high school course.

The certificate privilege is granted to all schools on the approved list of the New England College Entrance Certificate Board. Other schools may obtain the privilege only by vote of the Faculty of the College. Application for the certificate privilege must be made on the form furnished by the College.

The certificate must show the entire record of the candidate and give evidence that she has completed, to the extent and in the manner described in the Bulletin of the College Entrance Examination Board, the subjects in which she is recommended for admission without examination. The certificate may be supplemented by examinations, if necessary, to meet the entrance requirements of the College in full.

### (B) ADMISSION BY EXAMINATION

The candidate must pass satisfactory examinations in English composition and literature (English 1-2, 3 units); in one foreign language (3 units), or in two foreign languages (2 units each); in algebra (Mathematics A1, 1 unit); in plane geometry (Mathematics C, 1 unit); in one branch of history\* (1 unit); and in enough subjects from the list given below to make a total of 15 units.

The requirements in the various subjects are in general identical with or equivalent to those of the College Entrance Examination Board, and the Board examinations are accepted for admission to the College.

\* *Ancient History is counted as one branch of history.*

The following table outlines the subjects of admission, with the Board examinations which represent them:

### EXAMINATIONS HELD BY THE COLLEGE ENTRANCE EXAMINATION BOARD

The examinations of the College Entrance Examination Board are held in Boston and at many other places throughout the country beginning the third Monday in June.

All applications for the examinations of the Board must be addressed to the Secretary of the College Entrance Examination Board, 431 West 117th Street, New York, N. Y., and must be made upon a blank form to be obtained from the Secretary of the Board.

A list of the places at which examinations are to be held by the Board in June is published about March 1. Requests that the examinations be held at particular points, to receive proper consideration, should be transmitted to the Secretary of the Board not later than February.

### REGENTS EXAMINATIONS

The College allows credit for Regents examinations passed with a grade of seventy-five per cent or over in the standard college preparatory subjects.

### EXAMINATIONS HELD AT SIMMONS COLLEGE

Entrance examinations in subjects for which application is made are held at the College in September. Applicants who plan to take examinations should notify the Recorder not later than August 1.

Information regarding examinations in subjects in which the College Entrance Examination Board does not examine may be obtained from the Recorder.

### (C) ADMISSION BY CERTIFICATE AND EXAMINATION

If a candidate's certificate does not cover enough subjects to meet the requirements for admission, she may offer subjects by examination to complete the requirements.

## II. SPECIAL CONDITIONS OF ADMISSION

The Committee on Admission and Programmes may admit candidates of sufficient maturity who are unable to fulfill the regular requirements, if their preparation includes a high school course or its equivalent, and if they show fitness for the courses for which they apply. Such students are received only on probation, and are granted classification only by vote of the Faculty, after the quality of their work has been sufficiently tested.

Part-time students who are unable to meet the regular entrance requirements may be admitted if their preparation includes a full high school course or its equivalent and if there is room in the classes after all regular students have been admitted. Part-time students may register for not more than eight hours, and for these they must obtain the consent of the chairman of the department in which they wish to register, but they may not count these courses for a degree.

## III. ADMISSION FROM COLLEGES AND NORMAL SCHOOLS

Applicants who have completed satisfactorily one year or more in other approved colleges or are graduates of approved normal schools are admitted to advanced standing without examination as candidates for the bachelor's degree. Applicants who have completed only one year in approved normal schools are required to present evidence of having satisfactorily completed preparation which is equivalent to a four-year high school course and which includes the requirements for admission to Simmons College in English, foreign language, mathematics, and history, and are not granted advanced standing.

## IV. ADMISSION FROM JUNIOR COLLEGES

Students who, upon their admission to a junior college approved by Simmons College, could have satisfied the entrance requirements of this College will receive provisional credit

for those academic courses pursued in the junior college which correspond substantially to courses required in the programme which they plan to enter, the credit to become final when they shall have shown their ability to carry the work at Simmons College.

## A. SCHOOL OF HOUSEHOLD ECONOMICS

THE courses offered by the School of Household Economics are designed for women who wish to teach; to administer an institution or household; to undertake such forms of social service as work in clinics with children; to lecture or to write on subjects related to household economics; or to study special problems in the field of household economics. Teaching positions in this field are varied, including instruction in foods, clothing, and home making, in public, private, and vocational schools, normal schools and colleges. Certain types of community work conducted by family welfare and health organizations and by the Extension Department of the Bureau of Agriculture are open to household economics graduates. Administrative positions vary in responsibility, and include the management of school lunchrooms and of welfare lunchrooms of business corporations, and the administration of such institutions as college dormitories, orphan asylums, and hospitals. The more responsible positions are open only to older women.

The students in regular programmes are required to take certain academic and scientific subjects as well as technical subjects, since a broad training is essential to success in the field of household economics. An opportunity for vocational practice in connection with certain of the College courses is provided in the College dormitories—one house containing rooms for twelve students is used as a home management practice house—in the lunchroom, and at the Women's Educational and Industrial Union. Students who are preparing to administer school lunchrooms, to be managers of institutions, or to engage in other business enterprises are allowed to supplement their College training by observation and practice in the shops and workrooms of the Union. Students who intend to teach have opportunities for observation and prac-

tice in the classes of the public schools and of the settlement houses. Students who wish to apply household economics in social service have an opportunity for field work under various Boston organizations.

### THE FOUR-YEAR PROGRAMME

The four-year programme leads to the degree of Bachelor of Science. While each student is required to take certain academic, scientific, and technical subjects which are considered essential to success in any branch of household economics, still a wide range of electives is permitted through which a student may specialize in the subjects of interest to her. These electives are taken chiefly in the senior year, but for students specializing in biology, chemistry, or clothing, an earlier choice is necessary in order to meet the prerequisites for advanced courses. Details as to the time when such decisions must be made are indicated in the following outline of courses.

## PROGRAMMES FOR COLLEGE GRADUATES

The degree of Bachelor of Science is granted to graduates of other colleges who have satisfactorily completed a programme approved by the Faculty of Simmons College.

Two years are usually required, but in some cases it is possible to arrange a programme which permits graduation at the end of one year. This can be done only when the previous college training of the student has included so many of the courses in science or technical subjects required in the A I programme, that the remaining technical requirements of

\* Household Management 1 will be included in this programme in 1935-36.

\*\* One-half year.

that programme may be practically completed in a single year.

The Director of the School is glad to correspond with students who contemplate entering Simmons College with advanced standing, and to advise them concerning preliminary courses which will articulate with the requirements here for the degree of Bachelor of Science. This plan may be of advantage in shortening the programme or in making it possible to take advanced electives. At least one year at the College is required.

Normal school graduates are admitted to similar programmes, but a normal school graduate is seldom able to complete the requirements for the degree in less than three years.

The professional opportunities open to students who complete these programmes are similar to those described on page 35.

### A III. INSTITUTIONAL MANAGEMENT

The one-year programme in Institutional Management is planned to give professional training to women whose maturity and general experience qualify them for positions of responsibility in institutional work. Certificates are granted to students who complete the programme successfully.

Candidates must have had an education at least equivalent to a four-year high school course. They should be not less than twenty-five nor more than forty years of age, and they must satisfy the Director of the School of their personal qualifications for admission. Each applicant is expected to have an interview with the Director, but when this is impossible because of distance, she should send a recent photograph of herself and the names of persons who are qualified to judge of her professional fitness for the work. Since only a limited number of students can be admitted, early application is desirable. Students who follow this programme are advised, but not required, to live in the College dormitories.

Institutional management is an attractive professional field. The opportunities are numerous and varied, and advancement is reasonably certain for women who show an aptitude for the work.

Extended periods of practice and observation are offered to students following this programme, in the College dormitories and lunchroom, and also in the lunchroom, food shop, and business offices of the Women's Educational and Industrial Union.

### SUMMER COURSES

Summer courses in household economics are sometimes offered during a period of six weeks. Full information concerning these courses is contained in a bulletin which may be obtained from the Registrar of Simmons College.

## B. SCHOOL OF SECRETARIAL STUDIES

THE programmes in the School of Secretarial Studies combine academic and cultural subjects, such as English, foreign languages, science, history, economics, and psychology, with such technical and vocational subjects as shorthand, typewriting, accounts, commercial law, commerce, business organization, and business practice. Experience has shown that professional success cannot be secured in secretarial work without a well-rounded academic education; and therefore it is insisted in all the programmes of the School that such an education must precede or accompany the purely technical instruction. In the academic courses an attempt is made to develop the value of the subjects from a vocational standpoint as well as to emphasize their cultural value.

Graduates of the School of Secretarial Studies are now filling positions of many kinds. While the fundamental idea of the School has been to prepare women especially for the duties of private secretaries, medical secretaries, college registrars, office assistants, or teachers of commercial subjects, it has been found from experience that the programmes also furnish excellent preparation for women who prefer other types of business positions. For example, some of the graduates of the School are now directors of personnel in business offices, superintendents in manufacturing plants, supervisors of correspondence, advertising writers, and filing experts.

A programme extending over four years (B I) has been arranged for applicants who can meet the entrance requirements of the College, and a one-year programme (B II) is offered for graduates of other approved colleges. These programmes are described in detail later.

In all the programmes a limited amount of practice under actual business conditions has been arranged at the Women's Educational and Industrial Union and with a number of prominent business firms in Boston, where members of the senior class work for one day each week during a portion of the year.

## THE FOUR-YEAR PROGRAMME

For the completion of the regular programme for undergraduates leading to the degree of Bachelor of Science, four years are required; but a student whose courses of study and whose grades are satisfactory to the Faculty, and who finds it necessary to withdraw at the end of the second or third year, may be permitted, during that year, to take in addition to the regular work in English, such special courses in shorthand, typewriting, and accounts as will give her sufficient facility in these subjects to meet the requirements of the ordinary business position.

A student who desires to prepare herself for a position as teacher, accountant or income tax specialist, medical secretary or record secretary in a hospital, secretary in a law office or shorthand reporter elects from the courses given below.

Teacher: *Psychology* 2, 3 and 6, *Education* 1, 4, and 5.

Accountant or income tax specialist: *Economics* 4, *Accounts* 2, 3, 4.

Medical secretary or record secretary: *Chemistry* 2, *Biology* 1, *Shorthand-Typewriting* 8.

Secretary in law office or shorthand reporter: *Shorthand-Typewriting* 9.

## PROGRAMME FOR COLLEGE GRADUATES

A programme of secretarial subjects has been arranged for graduates of approved colleges. This programme is also open to those who have had at least three years of collegiate work, provided certain specified academic subjects are included. The purpose of the programme is to provide instruction and practice in secretarial subjects, including shorthand, typewriting, and accounts, for students who have already completed the equivalent of the academic subjects prescribed in the four-year programme. This special arrangement of courses insures in purely technical subjects a knowledge of principles approximately equivalent to that afforded by the longer programme. Since the number of students who can be admitted to this programme is limited, application should be made as early as possible.

Candidates who complete the programme satisfactorily (including a grade of at least C in *Shorthand-Typewriting 5*) are eligible for the degree of Bachelor of Science on the Commencement Day at the end of their year at the College.

\*\* If Secretarial Training 4 is elected, a student must take Accounts 2 and 4 in order to complete the requirements for the degree.

† If the hour plan permits, any of these electives may be substituted for required subjects already taken.

### SUMMER COURSES FOR TEACHERS OF COMMERCIAL SUBJECTS

Summer courses in secretarial studies are offered to properly qualified applicants. The programme is planned especially for teachers of commercial subjects, and includes instruction in virtually all the commercial studies, as well as in methods of teaching such subjects.

A bulletin describing the summer courses may be obtained from the Registrar of Simmons College.

## C. SCHOOL OF LIBRARY SCIENCE

**M**OST library positions are in public, college, and school libraries, but some are in business houses, art museums, scientific institutions, hospitals, and government departments.

The types of work are diversified, including work with adults and children; cataloguing; reference and research; positions in circulation departments; and administrative positions as heads of libraries, branch libraries, or departments.

The range in the choice of positions and in salaries is widest for those who are not restricted to one locality, as demands come to the School of Library Science from many parts of the United States.

Admission to the School is limited to women not over thirty-five years of age.

### GENERAL PREREQUISITES

In recent years more women have turned to librarianship as a vocation. Economic conditions decreasing library appropriations have diminished the number of positions available. With increased competition it is therefore more necessary to be well equipped to succeed. Those who have been in the upper sections of their classes in the high school or college have usually found this vocation suited to them.

A woman who thinks of becoming a librarian should consider what are the desirable prerequisites in intellect, physical strength, disposition, tastes, habits, and character. Among the traits desirable are courtesy, adaptability, readiness to accept responsibility, initiative, mental alertness, accuracy, and manual dexterity. Fundamental, too, are an appreciation of the social and educational possibilities of the library, and the ability to deal with people.

The best preparation begins in a home where books are familiars, and continues through a good college course. In many fields riper scholarship is needed. One who looks for-

ward to being a librarian should *use* libraries. The lack of this is a more serious handicap than lack of experience as a worker in a library.

Good health is important. Library work is physically exacting, and only to a very limited extent can opportunities be found for those not physically fit. No one is refused consideration, *but any physical handicap, including deformity, deafness, previous nervous trouble, or a recent operation, must be mentioned in applications for admission, and be noted on the health certificate. Failure to heed this requirement will justify the College in recalling, at its discretion, its permission to enter.*

### INSTRUCTION AND FIELD WORK

The methods of instruction vary with the subject, but the purpose throughout is that, in addition to the usual lectures, demonstrations, recitations, and reading, there shall be observation, practical experimentation, and reports, by the students.

Visits to libraries, binderies, bookstores, publishing houses, museums, exhibits, and professional meetings afford the field for observation. Boston offers unusual opportunities for such observation, and its varied lectures often supplement the College courses.

Practical experimentation of two types is needed: first, the working out of problems, real, but prepared with careful choice of conditions to illustrate certain points in library science; second, the kind which the student meets when thrown into practical competition in a library, to do the day's work, whatever it may be, with experienced workers as pacemakers. The first type is sufficiently cared for by the laboratory work accompanying the various courses, and by practice in the College library. For the other form an opportunity is afforded by field work in libraries and book stores. Each student in the four-year programme has four weeks of field work. Two consecutive weeks are given in the summer va-

cation preceding her senior year, and two more weeks are spent in a library of recognized standing during her senior year. In these two weeks all her College work is suspended. Students carrying the one-year programmes likewise have this fortnight of experience during the college year. They are advised to spend also at least a fortnight of observation and practice in a *public* library before entering the course. The School is indebted to the libraries which have generously consented to receive student practice workers, and have thus made it possible to include this privilege in the curriculum.

### SPECIALIZATION

Courses are offered for those who desire to prepare especially to be children's librarians or librarians of elementary or secondary schools.

### PROGRAMMES PREPARING FOR LIBRARIANSHIP

The School of Library Science offers four-year programmes and one-year programmes (C I, C II, C IV), leading to the degree of Bachelor of Science.

#### C I. FOUR-YEAR PROGRAMME

This programme is open to students who can fulfill the entrance requirements, which are described in detail on pages 28 ff. It is very desirable, although not at present required, that Latin be one of the languages offered for entrance, as the knowledge of it is important in the study of bibliography and library science, and it is not taught in Simmons College. Instruction is given in French and German, the most necessary modern languages, and a knowledge of both is required before the senior year. The minimum requirement in French and in German is the equivalent of a college year's study of each language, although at least two years of each are strongly advised. Unless they have offered both French and German for entrance, students carry in their first year a beginning course in that one of those two languages which they lack. Those who look forward to work in college li-

braries, or to reference and research or to cataloguing in large public libraries, should be able to read both French and German freely, and any additional language is an asset. In choosing electives it would be wise to bear this in mind.

The first three years are devoted to academic studies, except that in the third year a preliminary course in library methods and in typewriting is given as a preparation for summer field work. The fourth year is given exclusively to library science.

Students who transfer from other colleges with one, two, or three years of general credit are also enrolled in the C I programme. Such candidates should consult the Registrar of Simmons College for exact information as to the rules governing credit and prerequisites, including typewriting. As the C I quota is usually filled by those entering as Freshmen, very few transfer students can be admitted. Transfer can rarely be arranged after the second year since differentiation from academic college programmes begins during the third year. It is well to apply for admission at least a year in advance of the date of proposed entry.

C II. ONE-YEAR PROGRAMME IN LIBRARY SCIENCE FOR  
COLLEGE GRADUATES

This programme is open to graduates of approved colleges, without entrance examinations. Those planning to enter are advised to consult the Registrar of Simmons College regarding prerequisites. The minimum requirement in French and German is a year of study of each language, but at least two years of each, and some knowledge of Latin, are highly desirable.

For reference and research, and for cataloguing, in college and university and large public libraries, the ability to read French and German easily is greatly needed and every language is an asset. College graduates who have majored in language therefore have an advantage over those with the minimum attainment.

## C IV. PROGRAMME IN LIBRARY WORK WITH BOYS AND GIRLS

This programme is offered for those especially interested in the contribution which the library makes to its youthful readers. This field has peculiar problems for which specialized training is needed and is being more and more demanded.

From September to December all programmes lay a general foundation needed for all types of library work. At a stated time before Thanksgiving Associate Professor Brotherton confers with all students interested in library work with boys and girls to consider with them whether their success in this field is probable. The enrollment in C IV may not exceed twenty-five. Candidates are selected by Associate Professor Brotherton following the conference, but those who know in advance that they desire this specialization would be wise to indicate it in their applications for admission in September, although this does not establish a priority claim.

## SCHOOL LIBRARIES

All the programmes offered permit the substitution of *School Libraries 1* for other courses from December to June, if desired.

The course is especially recommended to college graduates who have had courses in education or successful experience in teaching, but it is open to a limited number of seniors, par-

ticularly those who have elected courses in psychology and education in their second and third years.

It should be understood that this specialization prepares for elementary and secondary school libraries. Those planning to enter college work should not elect School Libraries.

Since the class is limited to twenty-five, it is well to indicate any special interest when applying for entrance, even though that does not establish a priority right to admission to this elective.

### TYPEWRITING

The typewriter is so commonly used for all library records that it is desirable that library school students should know how to use it, even though they may not attain speed or great skill. A brief course, *Typewriting* 6, is required of all students who have not had instruction or experience in typing. If the instructor finds, after conference, that any student is sufficiently skilled to do the necessary work in essentially non-clerical positions in a library, such a student is excused from the course, without credit. College graduates who can do so are advised to offer Typewriting on entrance.

Typewriting cannot be included in the fourth year of the C I programme, and students who wish to transfer to that year from other colleges or other schools of Simmons College *must* have acquired some facility in typewriting in advance.

### SPECIAL STUDENTS

A few women of sufficient maturity and previous experience in library work who do not meet the full requirements for entrance are admitted to the technical courses of the C I programme *if there is room in the class* and if they can meet the conditions governing partial students. They are not considered candidates for the degree, but formal certificates are awarded to those who complete the entire technical programme satisfactorily. Since those who meet the full re-

quirements are given precedence, it is usually necessary to put other applicants on a waiting list until September.

### EXPENSES

The tuition is \$250, and the cost of residence in the College houses varies from \$350 to \$500 a year. In addition, students in the School of Library Science should allow in their budgets about thirty-five dollars for textbooks, supplies, and desirable material on library science as a nucleus of their professional libraries. An additional ten dollars is needed during the year of technical work to cover membership in the American Library Association, subscription to the *Publishers Weekly*, expenses for visits to libraries, and other items which can be more easily arranged for through the School than by the students.

*The Budget must provide also for two weeks' maintenance during the fortnight of field work*, for the value of this experience depends upon the library in which it is obtained, and the assignment should be made to suit the student's professional needs, not with reference to the distance from Boston.

### THE SUMMER LIBRARY CLASSES

In the summer of 1933 the following courses are offered: Cataloguing; Reference.

The summer session begins on July 5, and continues for six weeks. Application should be made as early as possible since the enrollment in some of the courses offered is limited.

A bulletin describing the summer courses may be obtained from the Registrar of Simmons College.

### GENERAL INFORMATION

No evening, Saturday, or correspondence courses are given.

The degree of Bachelor of Science is granted only to those who have spent their final year at the College, pursuing the technical programme, and who have completed all other requirements.

For graduates of academic colleges the summer library courses give credit toward the degree of Associate in Science. The degree will be granted on the completion, with satisfactory grades, of thirty-two points, including at least six points in each of the following subjects: Book Selection, Cataloguing, and Reference; and at least three points in each of the following: Classification, and Library Administration. The other eight points may be chosen from other library science courses offered in various summers, such as Library Work with Children, School Libraries, Bibliography, Government Publications, History of Libraries.

## D. SCHOOL OF GENERAL SCIENCE

### THE FOUR-YEAR PROGRAMME

THE programme in General Science leading to the degree of Bachelor of Science is designed for students who wish to become teachers of biology, chemistry, physics, or mathematics; assistants in chemistry or biology to persons engaged in medical or other scientific research; or to fill certain positions which involve the application of these sciences in the arts. The prescribed studies of the first two years are the same for all students, but in the third and fourth years major emphasis may be placed upon biology, chemistry, physics or mathematics. At least five-eighths of the work of these final two years must be in science or mathematics.

#### ONE-YEAR PROGRAMMES IN PUBLIC HEALTH AND LABORATORY TRAINING FOR COLLEGE GRADUATES

##### D IV. ONE-YEAR PROGRAMME FOR COLLEGE GRADUATES

Simmons College, by affiliation with the several laboratories of the State Department of Health, the Boston Dispensary and the Faulkner Hospital, offers an unusual opportunity to college graduates in practical training for laboratory positions that entail executive responsibilities. A one-year programme is open to a limited number of graduates of approved colleges who have taken at least elementary courses in biology, bacteriology, and chemistry.

The programme offers two options; one emphasizing public health laboratory, the other hospital laboratory, technique and administration. In the first option four weeks are spent in the State Wassermann Laboratory, eight weeks at the State Bacteriological Laboratory, eight weeks at the State Vaccine and Antitoxin Laboratory, and twelve weeks at the Boston Dispensary Laboratory. In the hospital course the work at the Bacteriological Laboratory and the Boston Dispensary Laboratory is omitted and more time is spent at the

Faulkner Hospital. One full course at the College must be taken in addition to the work in the outside laboratories. A certificate is granted for the satisfactory completion of this programme.

College graduates who are qualified as stated above and who wish to spend two years in preparation for their profession, may take a preliminary year of work at the College, which consists of courses in biology, chemistry, and, where practicable, physics, the exact courses depending upon previous work in these subjects.

The second year consists of the instruction in the outside laboratories as described above and of a period spent under the direction of the College in the preparation of a thesis. The degree of Master of Science is granted for the satisfactory completion of this two-year programme.

## E. SCHOOL OF SOCIAL WORK

**T**HE School of Social Work prepares students for professional service in social case work and group work as carried on in public and private agencies. The work of the School is given in six fields: children's work, community organization, family welfare, medical social work, psychiatric social work, and social studies. The programme is planned to give training in fundamental techniques and in the adaptation to the social work field of the science and experiences of certain other fields, such as medicine, law, psychiatry, and economics. Practical experience under the supervision of the School is arranged for all students.

### THE FOUR-YEAR PROGRAMME

The four-year programme for undergraduates leads to the degree of Bachelor of Science. The instruction of the first three years is given at the College building, 300 The Fenway, but that of the fourth year is given at 18 Somerset Street.

#### FOURTH YEAR

##### The Theory and Practice of Social Work

*a. Class Instruction.* In consultation with the Director, every student elects professional courses. Each class meets twice a week for a sixty-minute period.

*b. Field Work.* A minimum of 500 hours of practice work must be completed during the year. Students work in social agencies in and near Boston, under the supervision of the School staff.

## E II. ONE-YEAR AND TWO-YEAR PROGRAMMES FOR COLLEGE GRADUATES

Graduates of accredited colleges may become candidates for the degree of Bachelor of Science in one year. If their preparation has not included economics they are required to make up this deficiency.

Candidates for the master's degree must do two years of professional work. In both class and field work they must attain grades of A or B. A satisfactory thesis is required. They must have fulfilled the minimum requirements necessary for the degree of Bachelor of Science in the School of Social Work.

## E III. TWO-YEAR PROGRAMME

A two-year programme leading to a certificate is offered. Candidates must have the equivalent of two years of college work, and in lieu of further academic preparation, several years of experience in teaching, nursing, or other fields related to social work. In addition to the required professional courses five hundred hours of supervised field work are required in the first year, and six hundred and fifty hours in the second year. Each student is further required to do one month of supervised field work between the first and second years of the programme.

## MEN AND SPECIAL STUDENTS

Men as well as women are admitted to the professional courses of the School of Social Work.

A limited number of persons in the employ of social agencies may be admitted to such courses as they are qualified to pursue with profit.

## BULLETIN OF THE SCHOOL OF SOCIAL WORK

A special bulletin describing in detail the requirements and programmes of the School may be obtained from the Registrar of Simmons College or from the Director of the School.

## F. SCHOOL OF PHYSICAL EDUCATION

**B**Y an arrangement with the Bouvé-Boston School of Physical Education, students of that school who have satisfied the entrance requirements of the College and have completed satisfactorily the first two years of a programme approved by the Faculty of the College, may register during their third and fourth years, and will be qualified for the degree upon the completion of sixteen year hours in the following subjects during those years, in addition to the courses required by the Bouvé-Boston School:

English  
History  
Education  
Educational Psychology

Art  
Social Economy  
Ethics  
Philosophy

## G. PRINCE SCHOOL OF STORE SERVICE EDUCATION

**T**HE Prince School of Store Service Education offers a year of training to prepare students to become:

A. Personnel directors in retail stores.

B. Educational directors.

Stated broadly, the work of an educational director is concerned with the development of the powers and resources of the personnel in order to:

(1) Render more efficient service to the public.

(2) Aid the management in attaining greater economy of operation (or in reducing the cost of doing business) by increasing and improving individual production.

(3) Develop the capabilities of individuals that they may become more contented in their present work and better fitted for promotion in the organization, thereby improving store loyalty and coöperation.

Some of the specific phases of store educational work are:

(1) Instruction of all new employees in the duties of their respective positions.

(2) Continued training of various store groups for improved performance. Such training may include groups in both selling and non-selling departments: floor managers, assistant buyers, sales persons, juniors, elevator operators, delivery drivers, etc.

(3) Courses with buyers, floor managers and other department heads in the principles of leadership and technique of personnel management.

(4) Training for promotion for both non-executive and executive positions.

(5) Organizing the training programme to coördinate merchandise information, sales promotion and fashion promotion.

### C. Employment managers and assistants.

Employment is another department of personnel that is entered by a number of the graduates of the school.

D. Teachers of retail selling and related subjects in public high schools, continuation, evening, and part-time schools.

#### (1) In high schools.

In many cities courses in high schools may be elected by juniors and seniors who wish to prepare themselves for store work after graduation. These courses are carried on in coöperation with the stores and in most states a professionally trained teacher is required.

#### (2) In continuation, evening, and part-time schools.

Besides the preparatory courses in high schools, many public schools offer training to those already employed by the stores. Day classes are arranged for younger workers and evening classes for older ones. Extension courses in retail selling in the evening schools are arranged for older employees and for the most part carried on as short unit courses. These courses also need especially trained teachers.

### E. Buyers.

An increasing number of graduates of the school become buyers. As preparation for buying the school includes in its programme, among other subjects necessary for the buyer, order and invoice procedure, mark-up and mark-down, operating statements, stock control, merchandise, fashion, and personnel duties.

### F. Store executives in other capacities.

Sales promotion and advertising, fashion coördination, and research are other lines of work followed by graduates of the school. There are a few who are field agents in smaller stores or in chain organizations. Manufacturers who render services to department stores, employ traveling service representatives. A few graduates have established and are managing businesses of their own.

## ADMISSION AND DEGREES

Students are admitted on the basis of individual fitness. Preference is given to applicants who are graduates of colleges or four-year normal schools, and who have had teaching or business experience. A student presenting from another college credits which entitle her to full senior rank shall be eligible to receive the degree of Bachelor of Science upon completion of the one-year course at the Prince School. However, the presentation of such credits does not assure admission. The enrollment is limited to applicants whose years, education, and experience have developed that maturity necessary for the assuming of responsibilities that pertain to executive positions.

Prospective students should have proficiency in the use of oral and written English. Facility in organizing the materials of research and in writing reports in correct expository English is of the first importance. Other subjects recommended for undergraduate study are psychology, economics of merchandising, education, textiles, and color, line and design.

The degree of Master of Science is granted to graduates of approved colleges who maintain a grade of A or B in each course and who, in addition to the required programme, prepare a thesis.

At least one month of selling experience in a department store is a prerequisite to entrance. This is a minimum: a longer period of store work is of great value and is urged. A certified statement regarding this preliminary work must be mailed to the school office when the requirement has been fulfilled. A blank form is furnished by the school.

Students are admitted for the full course only, which covers an academic year beginning in September and ending in June. No entrance examinations are given. No correspondence, evening, summer, or special courses are offered.

Requests for information or for catalogues of the school should be addressed to the Director, Prince School of Store Service Education, 19 Allston Street, Beacon Hill, Boston.

## H. SCHOOL OF PUBLIC HEALTH NURSING

THE School of Public Health Nursing offers programmes designed to prepare women for community health work or for head nursing positions. Through its affiliation with a group of schools of nursing and with a selected list of health and social agencies, it offers theory and practice designed to increase knowledge and skill in head nursing, and in community health services such as maternity, infancy, pre-school, school, communicable disease, and tuberculosis work.

The courses of study offered are planned for three distinct groups of students. The first group of students consists of graduate nurses, and pupil nurses in the third year of hospital training, who wish to supplement their hospital training with special preparation for the public health field. For this group of students are planned the one-year programme in General Public Health Nursing (H II) and the Four Months' Training in Field Work (H VI). The second group includes those who have not yet begun their technical training in nursing. For these students are designed the five-year programme (H I) offered in affiliation with the Schools of Nursing of the Massachusetts General, the Peter Bent Brigham, and the Children's Hospitals, and the half-year programme in preparation for Schools of Nursing (H V). The third group consists of graduate nurses and those in the last year of the five-year programme who wish to specialize in head nursing. For this group the College is planning a major programme in Head Nursing (H III).

With the exception of the half-year programme in preparation for Schools of Nursing (H V), each programme includes field work. The field work in General Public Health Nursing consists of supervised practice in family health work, including prenatal, maternity, acute, chronic and communicable disease nursing, under the Community Health Association; in infant welfare and tuberculosis work usually under the Boston Health Department; and in social work under the Family Welfare Society of Boston or some other

social agency. Further opportunities for observation or practice are offered by other social and health agencies. In special cases, field work may be arranged according to the needs of individual students. The field work in Head Nursing is arranged with the affiliated hospitals according to the individual needs of the students and the resources available.

Only a limited number of students can be admitted to any course of study including field work. Preference is given to candidates who have superior qualifications and to those who make early application.

For a detailed explanation of the courses included in the briefer programmes see the Bulletin of the School of Public Health Nursing, which may be obtained from the Registrar of Simmons College.

### THE FIVE-YEAR PROGRAMME

In offering the five-year programme the School of Public Health Nursing is affiliated with the Schools of Nursing of the Massachusetts General, the Peter Bent Brigham, and the Children's Hospitals. The programme leads to the degree of Bachelor of Science from Simmons College and to the diploma of the School of Nursing selected by the student. For admission to it students must meet the requirements for admission to Simmons College, and also the requirements in regard to personal fitness made by the School of Nursing chosen. A personal interview with the Director is desired, if possible, before a candidate is accepted.

### THIRD AND FOURTH YEARS

The third and fourth years are devoted to technical work in the School of Nursing selected. For admission to this part of the course students must not only have attained a satisfactory academic record, but must also be recommended as to personal qualifications by the Director of the School of Public Health Nursing. Students enter the Schools of Nursing in September following their second year at Simmons College. During the first four months all students are on probation, and only those who in the opinion of the Principal of the School of Nursing prove adapted to nursing work are allowed to continue. The instruction in each School of Nursing extends over two calendar years, but a vacation is given during the summer following the first year in the school. The work consists of theoretical instruction and practical training. The latter is given in the various medical and surgical departments of the hospitals; obstetrical training is given in an affiliated hospital.

A detailed description of the work of these two years may be found in the Announcements of the Schools of Nursing, which may be obtained from the Registrar of Simmons College.

### FIFTH YEAR

The fifth year provides special training in public health nursing or in head nursing. The arrangement of work is similar to that of the one-year programme in General Public Health Nursing (H II) or of the one-year programme in Head Nursing (H III). For admission to this part of the programme students must be recommended by the Principal of the School of Nursing. If satisfactory facilities are not available in Boston, arrangements will be made for enrollment in some other approved institution with equivalent credit toward the degree from Simmons College.

### THE ONE-YEAR PROGRAMME IN GENERAL PUBLIC HEALTH NURSING

For admission to the one-year programme students must be graduates of approved high schools. Certain exceptions may be made according to the rules on page 33. In addition they must be registered nurses who are graduates of schools of nursing which meet the accepted standards, or pupil nurses from approved schools who have completed at least two years of training, including obstetrics.

Graduate nurses who satisfactorily complete the pro-

gramme receive certificates, and those who already hold college degrees receive the degree of Bachelor of Science. Pupil nurses who satisfactorily complete the programme receive certificates after they have graduated from their schools of nursing and have completed their state registration.

The work of the programme includes both didactic instruction and supervised field work. The class work is given from January to June; the first thirteen weeks of the college year and the month of June following examinations are devoted largely to field work. The field work, therefore, occupies all together four months, and is equivalent to the Four Months' Training in Field Work (H VI. See page 66). Students who have already completed satisfactorily the Four Months' Training may be credited with all or part of the field work requirement of this programme. Students who have had satisfactory experience in well-developed public health nursing associations may be admitted in January, and in exceptional instances they may be credited with one month of the required field work.

## H III. ONE-YEAR PROGRAMME IN HEAD NURSING

The admission requirements for this programme are the same as those for the H II programme. Preference is given to those candidates who have had six months' experience in general nursing practice and whose records show a standing above average, and potential ability for teaching and executive work. Application should be made at least two months before the date of proposed entry.

\* Given at 18 Somerset Street. Described in the special bulletin of the School of Social Work.

Head Nursing practice under supervision approximates a half-year's work (four months). The theoretical courses include Psychology, English, Ward Management, Ward Teaching, Nursing Procedures and Teaching Practice, Social and Preventive Aspects of Nursing, and electives in science.

More definite information concerning this programme may be found in the special bulletin of the School of Public Health Nursing.

#### HALF-YEAR PROGRAMME IN PREPARATION FOR SCHOOLS OF NURSING

By an arrangement with the Children's Hospital and the Deaconess Hospital, students who are admitted to the training schools for nurses in those institutions are received by the College for instruction in the scientific subjects necessary for their professional work. This programme occupies one half-year, and is repeated, beginning early in February. Other students are admitted to it if the number of students received from the hospitals is less than the number for which provision has been made; such students must, however, meet the entrance requirements of the College. The programme is as follows:

##### H VI. FOUR MONTHS' TRAINING IN FIELD WORK

The Four Months' Training in Field Work is open to registered nurses who are graduates of approved training schools, and also to pupil nurses from approved training schools who have completed two years of training, including obstetrics.

Applicants must be graduates of approved high schools, or have received an equivalent preliminary education; but

a limited number of graduate nurses with satisfactory professional and personal qualifications whose education has not included a complete high school course may be admitted at the discretion of the Director of the School.

This course is designed to furnish the fundamental practical training required in the various forms of public health nursing. The usual arrangement of work consists of approximately two months of supervised training in the districts of the Community Health Association, one month in infant welfare and tuberculosis work, ordinarily under the direction of the Boston Health Department, and one month with a social agency. Other opportunities for practice or observation, especially in school nursing or rural nursing, may be arranged for a limited number of qualified students. Not more than one month may be devoted to such work. Students spend from thirty-five to forty hours a week in field work, and in addition take Public Health Nursing 1. The course is repeated, beginning in January.

### SUMMER COURSES

Full information concerning the summer courses in nursing education is contained in a bulletin which may be obtained from the Registrar of Simmons College.

## L. SCHOOL OF LANDSCAPE ARCHITECTURE

WITH the coöperation of the Lowthorpe School of Landscape Architecture for Women, located at Groton, Massachusetts, a programme in Landscape Architecture is offered, leading to the degree of Bachelor of Science. The first two years are spent at the College, following a programme of cultural and technical courses regarded as a suitable preparation for the profession. The third year and at least one summer session are spent at Groton with intensive work in professional subjects, while the final year is spent either at the College in Boston or at Groton in completing the professional requirements. A personal interview with the Director is desired, if possible, before a candidate is accepted.

## PROGRAMME LEADING TO A MASTER'S DEGREE

Graduates of this School or of other schools offering a bachelor's degree in landscape architecture may be admitted as candidates for the degree of Master of Science. The time usually required of graduates of this School is one year and of graduates of other schools somewhat longer. Advanced work in professional subjects and a master's thesis are required.

## ADMISSION TO ADVANCED STANDING

Students in full standing in approved colleges may be admitted to the second year's work at the College or to the third year, which is spent at Groton, provided they have met the requirements of the preceding part of the programme, or their equivalent. Students who have had two years of college work but who have not had the technical subjects in the programme may be required to spend more than two years at Groton before completing their final year.

Inquiries concerning the four-year programme should be addressed to the Registrar of Simmons College, 300 The Fenway, Boston.

Requests for information regarding technical subjects should be sent to the Director, Lowthorpe School of Landscape Architecture, Groton, Massachusetts.

## VOCATIONAL PRACTICE AT THE WOMEN'S EDUCATIONAL AND INDUSTRIAL UNION

The Women's Educational and Industrial Union, organized in 1877, has placed its facilities for vocational practice at the disposal of the College for the use of the students in the regular programmes of the Schools of Household Economics, Secretarial Studies, and Library Science, and for a limited number of qualified students not otherwise connected with the College. This practice is provided in their sixteen industrial, social, and educational departments employing four hundred and twenty-five people. The school lunch department prepares and serves noon lunches to twenty-four thousand school children in thirty-seven Boston senior and junior high schools. The food shops and restaurants cater to the needs of approximately nine hundred thousand each year. It is the variety and the extent of the experience available under representative commercial conditions which makes this opportunity so valuable to the student. All practice is under the general supervision of the Director of Vocational Practice. The following departments are available for observation and practice:

Additional information regarding these opportunities, and the fees that are charged, may be obtained from the Registrar of Simmons College.

## THE COLLEGE EDUCATIONAL BUILDINGS

### THE MAIN COLLEGE BUILDING

The main College building is situated near the southern end of The Fenway, facing the city. It may be reached by all Ipswich Street and Brookline Avenue cars, which leave Massachusetts station, and by all Huntington Avenue cars. The building occupies a frontage of 480 feet and has a ground area of about 36,000 square feet. The central portion was completed in 1904, the west wing in 1909 and the east wing in 1929.

### THE COLLEGE LIBRARY

To supplement the instruction in the various courses, a reference library has been established, to which extensive additions are being made every year. The books are accessible during the hours of the day while the College is in session. Students of the College, whether residents of the city of Boston or not, are allowed the privileges of the Boston Public Library. Non-residents must obtain special cards for these privileges from the Librarian of the College.

### THE GYMNASIUM AND THE ATHLETIC GROUND

A large room on the first floor of the west wing of the main College building has been equipped with the necessary apparatus for the Department of Physical Training. The shower baths, dressing rooms, and lockers are in the basement. Behind the College building is an athletic ground with tennis, handball, and basketball courts and provision for archery, hockey and golf. A moderate amount of work in gymnastics, dancing, and supervised games is required of all the first-year students in residence who are following a four-year programme. For other students exercise is optional. The Director of Physical Training gives every first-year student an examination and advises her as to a tentative scheme for

exercise. This examination supplements the information furnished by the physician's certificate which the candidate has filed in advance; and together they serve as a basis for deciding whether or not she is physically fitted for undertaking the College course. The College reserves the right to reject any candidate if, in the opinion of the College physician and the Director of Physical Training, such action is justified. Each student taking gymnastic work is expected to provide herself with a suitable costume specified by the College.

#### THE LUNCHROOM

A lunchroom for non-resident students is provided in the basement of the west wing of the main College building. Luncheons are served from eleven-thirty to one-fifteen o'clock every day when the College is in session.

#### THE COÖPERATIVE STORE

The Simmons Coöperative Store, in the basement of the east wing of the main College building, is open every week day except Saturday from eight-thirty to four o'clock. On Saturday the store closes at twelve o'clock. Here students may purchase or order books, stationery, etc., at the lowest market prices. At the end of the year the net profits revert to the students.

#### THE SCHOOL OF SOCIAL WORK

The classes for the fourth-year students and special students in the School of Social Work are held at 18 Somerset Street. In this building is the special library, including the important and valuable collection of books and pamphlets relating to charities, which was transferred to the College by the Boston Children's Aid Society. The library is open to all members of the College.

### THE PRINCE SCHOOL OF STORE SERVICE EDUCATION

The classes for students in the Prince School of Store Service Education are held at 19 Allston Street, Beacon Hill, Boston.

### THE SCHOOL OF LANDSCAPE ARCHITECTURE

The classes for the third-year, fourth-year, and special students in the School of Landscape Architecture are held at the Lowthorpe School of Landscape Architecture for Women. This school was founded in 1901 by Mrs. Edward Gilchrist Low to offer training to women in this profession. It is located in Groton, which is about thirty-six miles from Boston and is one of the oldest and loveliest of New England villages. The School is in an old colonial house which overlooks the farm, gardens, and nursery which serve as laboratories for instruction in horticulture and design. There is a drafting room, a library, dining and drawing rooms, and the students are lodged in near-by dormitories.

### RESIDENCE

The student body of Simmons College is almost equally divided between resident and non-resident students. All undergraduate students who do not live in their own homes or with immediate relatives are expected to live in the College houses, under the care of the College. Exceptions to this rule may be made only with the approval of the Dean secured *in advance*, and any changes in residence during the College year must also receive her previous approval. The Dean does not ordinarily grant permission to first-year students to live outside the College for the purpose of earning board and room.

### THE BROOKLINE AVENUE DORMITORIES

The principal dormitories are situated about half a mile from the main College building, on the land bounded by Brookline Avenue, Short Street, and Pilgrim Road. This

group consists of North Hall and South Hall, each accommodating about fifty-five students, and nine small houses varying in capacity from twelve to twenty-two students. These are Appleton, Bellevue, Brick, Brookline, East, Longwood, Pilgrim, Students' and West Houses. Most of the rooms in North Hall and South Hall are single rooms, but each Hall contains ten two-room suites with accommodations for two. The small houses consist almost entirely of double rooms. The charge for residence in the Halls is \$500 a year for each student whether in a single room or in a suite. In the small houses the charge is \$450, except for certain rooms at \$350 which are assigned, after application to the Dean's Office, to students who need to keep their expenses as low as possible. The charge for residence in all the houses includes table board, heat, and electric light.

#### THE BROOKLINE HOUSES

The Brookline Houses consist of the Cypress Street group and the Francis Street group, each of which is under the supervision of a Director who is responsible to the Dean for the health and general welfare of the girls under her care. The Cypress Street group comprises the houses at numbers 49, 62, 72 and 78 Cypress Street, and number 5 Gorham Avenue. The Francis Street group comprises those at numbers 21, 26 and 36 Francis Street, number 240 Kent Street and number 14 Newell Road. All resident members of the freshman and sophomore classes live in the Brookline groups.

Most of the rooms in these houses are double rooms, although each house contains a limited number of single rooms. The charge for residence in the Cypress Street group is \$350 and \$400, most of the rooms being \$400. In the Francis Street group the charges are similar except in the house at number 240 Kent Street, where they vary from \$350 to \$450 according to the size and location of the room. This charge does not include luncheons on the days when the College is in session, when luncheon may be obtained in the College lunch-

room at an additional cost of about \$60 a year. In some cases an allowance must also be made for carfare if the students do not wish to walk to the main College building.

#### THE LOWTHORPE SCHOOL

Third-year students in the School of Landscape Architecture are required to live in the dormitories at Groton, Massachusetts, where the residence charge is \$216 a quarter.

#### ROOM FURNISHINGS

The College provides the *necessary* furniture for all rooms, but does not include rugs or bookcases. Rugs should not exceed four and one-half by seven and one-half feet in size. The bed is a single couch, three feet wide; pillows are twenty-two inches wide. The student supplies table napkins, towels, and all her bed linen, with the couch cover and any blankets in excess of the two provided by the College. The bed linen is included in the student's personal laundry, for which she makes her own arrangements. Students are expected to care for their own rooms.

The furnishings of the rooms vary somewhat in the different Brookline houses. Each student may obtain full information concerning her room by writing to the head of the group to which she is assigned.

#### ASSIGNMENT OF ROOMS

Students already in residence choose their rooms in the spring. Lots are drawn in the order of classes, the juniors having the preference. The payment of an *advance* deposit of \$25 is required before any reservation of rooms can be made. The entire amount of this deposit is returned if the student gives up her room before July 15, and \$20 are returned if the room is given up after July 15, provided that the place is filled on or before the opening day of College. If it is not filled, no refund is made. Unless a room is occupied, it is not reserved after the second week of the Col-

lege year except by special agreement. If, after all the students in the upper classes have been accommodated, there are any rooms left vacant, they are assigned, in the order of application, to students entering with advanced standing from other colleges.

Candidates for admission to the College as resident freshmen should make early application to the Registrar of the College. An *advance* deposit of \$25, to be deducted from the first payment for residence, is required when the application is made. Ordinarily, room assignments are not made until August, but in no case can a place be assigned to a prospective freshman until after her formal admission to the College. Room-mates are assigned through the Dean's office. If a student withdraws her application for a room not later than July 15, the entire amount of the advance deposit is returned to her. Twenty dollars are returned to a student who withdraws after July 15, provided that the place reserved for her is filled on or before the opening day of College. If it is not filled, no refund is made.

#### REGULATIONS AND PAYMENTS

The College houses are under the general supervision of the Dean, who is represented by the heads of the various groups, with a resident assistant in each house. The direction of matters of order and conduct is assumed by the Student Government Association. The dormitory equipment and the dining hall are under the care of the House Superintendent.

Bills for residence must be paid in advance. One-half of the residence charge (less the deposit) must be paid before the end of the second week after classes begin in September, and the remaining one-half before the end of the second week after classes begin in January.\* Checks should be made payable to Simmons College. If a student is obliged to withdraw from the College before the end of the year, the

\* An exception to this method of payment is made in the case of students in the Prince School, who pay two thirds of the residence charge in September and the balance on or before February 1.

charge for residence is one-thirtieth of the annual rate for each week or fraction of a week of residence from the beginning of the College year to the date when the formal notice of withdrawal is received by the Dean. Any balance is returned to the student. The minimum charge for residence is \$25, and no rebate is made unless the amount paid by a student exceeds that sum.

Students who remain in the College houses during vacations are charged at the rate of two dollars a day for residence. Students may enter the College houses two days before the term opens, and are expected to leave the first day after their final College exercise. Exceptions to this rule are made only with the consent of the Dean.

## HEALTH

Every candidate for admission to the College is required to present a satisfactory certificate of health for which the College provides a blank. In cases where it seems advisable, a medical examination may be required after registration. For the convenience of students, the College provides a list of accredited physicians, including specialists. A student in residence falling sick is expected to consult one of these physicians unless some other preferred arrangement has been specified in advance by her parents or guardian. In cases of contagious disease or in emergencies requiring immediate decision, the College assumes the obligation of taking such action as may seem, at the time, to be for the best interests of all concerned. A student may at any time be required to withdraw from College if, in the opinion of the College authorities, the condition of her health is such as to make it unwise for her to remain.

## ADMINISTRATION AND GOVERNMENT

### ORGANIZATION OF THE COLLEGE

The immediate government of the College is intrusted by the Corporation to the College Faculty, which consists of the President, the Dean, the Professors, Associate Professors, Assistant Professors, and such Instructors as may be designated by the Corporation. The Dean is charged with the oversight of the conduct and attendance of the students.

At the beginning of each year every student is required to register her proposed schedule of studies. The Director of the School in which a student is pursuing her technical work has the immediate supervision of her progress and standing and must approve all changes in accepted schedules of studies.

All questions regarding the admission of students, and the credit to be given for courses pursued at other institutions, are determined by the Committee on Admission and Programmes which consists of the Dean, the Registrar, and five members of the College Faculty.

### ATTENDANCE

Attendance is required at all College exercises. Absences due to illness or other unavoidable causes may be compensated for by additional work or special tests. Unnecessary absence lowers the standing of a student, and, if excessive, may cause her withdrawal from the course.

### COLLEGE EXERCISES

The College exercises occupy the hours between quarter of nine o'clock and four o'clock from Monday to Friday, inclusive. College appointments must take precedence over any other engagements during these hours.

Three days each week at noon there is a general exercise which includes a brief address by an officer of the College, or

by some other speaker. Attendance at one exercise each week is expected of all full-time students in the undergraduate division.

#### CONDUCT AND SCHOLARSHIP

A student is received only on the condition that her connection with the College may terminate whenever, in the judgment of the Faculty, she has failed to show sufficient industry or scholarship to justify her relation with the College. A student may be dismissed who does not meet the requirements of conduct and order, or whose behavior is inconsistent with the standards of the College.

#### GRADES AND VALUATIONS

The grades which are given at the end of each year, based on the class work and on the examinations given at the end of the year, are: A (Excellent); B (Good); C (Fair); D (Low); E (Failure). The grade of D implies that special conditions regarding dependent courses and graduation may be imposed by the Faculty. In case any such conditions are imposed, both the student and the parent or guardian are notified.

In determining the general quality of a student's work, the following valuations have been established: A = 4, B = 3, C = 2, D = 1.

#### SUMMER READING

Every regular student who expects to return to College is required to read a number of approved books during the summer vacation. The object of this requirement is to encourage students to form the habit of reading good literature, and the books which are assigned are therefore of general interest—not of a technical character. Students are allowed a considerable latitude of choice, and those who wish may adapt their reading to the requirements of the courses in English literature provided by the College. A list of books recommended for summer reading is distributed at the close of the

College year, and each student reports upon her reading in the following October. Any student who is unable to fulfill the requirement must present a satisfactory excuse to the Dean.

## COLLEGE ACTIVITIES

### COLLEGE PUBLICATIONS

In May of each year the senior class publishes the *Microcosm*, which gives information about the College Faculty, the senior class, and the various organizations of the students. The book is illustrated by photographs of members of the Faculty and of the seniors, and also by pictures showing episodes in the life of the College.

The *News* is published weekly by the students, and contains information on matters of current interest.

### COLLEGE ORGANIZATIONS

The Student Government Association, of which every student automatically becomes a member when she registers, is particularly interested in the Honor System. Under this system examinations and tests are not proctored since the students assume the responsibility for the conduct of the classes. A branch of this Association has established the rules which contribute to the maintenance of the College regulations in the dormitories.

Other organizations representing the various activities of the students are: the Athletic Association, the Dramatic Club, the Debating Society, the Poetry Club, the Musical Association, the Young Women's Christian Association, the Menorah Society, the Christian Science Society, the Unity Club, the Newman Club, and the Student Forum.

## DEGREES AND CERTIFICATES

### THE DEGREE OF BACHELOR OF SCIENCE

The degree of Bachelor of Science is conferred upon those students who have completed the following requirements:

1. All entrance requirements.

2. All the prescribed subjects in some definite four-year or five-year programme printed in the catalogue, or in some specific programme approved by the Committee on Admission and Programmes.

3. At least 60 year hours.

4. An evaluation of at least 112 \* in the quality of the courses.

5. An evaluation of at least 28 \* in the courses of the fourth or final year.

6. A similar standard of quality for all technical work.

An applicant for the degree must do her final year of work at the College.

Abstracts of the records are issued to other students, showing the lists of subjects studied and the grades attained in each.

#### THE DEGREE OF MASTER OF SCIENCE

The conditions for obtaining the degree of Master of Science are as follows:

1. Every candidate for the degree of Master of Science must hold the degree of Bachelor of Science from Simmons College, or a baccalaureate degree from some other approved institution.

2. The candidate must fulfill the minimum requirements which would be necessary for the degree of Bachelor of Science in the particular school of Simmons College in which she is registered. If she is registered in a school in which there is no undergraduate technical programme, she must offer such courses as may be prescribed as prerequisites to the graduate work of the school.

3. The candidate for the degree of Master of Science must pursue her studies at the College for at least one year after receiving the bachelor's degree.

The work must be the equivalent of 16 year hours and must include one major and one minor subject. The work

\* See statement on page 78.

in the major subject must be three-fourths of a full year's work and must be more advanced than the work required for the baccalaureate degree. The work in the minor subject must be one-fourth of a full year's work and must be done in a department other than that in which the major work is done. A grade of A or B must be attained in all work accepted for the degree of Master of Science.

4. The subjects elected must be approved by the Faculty Committee on Graduate Students, and the courses must be approved by the heads of the departments in which they are taken.

### CERTIFICATES

Certificates are granted in June to students who complete successfully the one-year programmes in Institutional Management, in Library Science, in Social Work, in Store Service Education, and in Public Health Nursing, and for the one-year programmes in Laboratory Training.

## CHARGES FOR INSTRUCTION

### TUITION FEES

For the year 1933-34 the charges for instruction are as follows:

1. Except as stated below, the fee for a full-time programme is \$250 a year. The fee is payable in two equal installments, the first in September, the second in January.

2. Except in the School of Social Work the fee for a partial programme (fewer than twelve hours) is on the basis of \$75 for a four-hour year course. In the School of Social Work the fee is \$17.50 for each term course. (Field work for each term counts as one course.)

3. For the one-year programme in Public Health Nursing (H II), for the one-year programme in Head Nursing (H III), and for the fifth year of the H I programme, the fee is \$185, payable in two equal installments, the first in September, the second in January\*; for the Four Months' Training

\* Students who enter January 2, 1934 pay \$145 in January, and \$40 at the beginning of the period of field work in September.

in Field Work in Public Health Nursing (H VI), \$40; and for the half-year programme in preparation for schools of nursing (H V), \$75. Those taking part-time work in the Head Nursing programme pay on the basis of \$15 for each one year unit (approximately thirty hours of class work).

4. The fee for the programme in the Prince School of Store Service Education is \$300, payable in two installments, the first of \$180 in September and the second of \$120 on February 1.

5. The tuition fees for the School of Landscape Architecture are as follows: first year, \$250; second year, \$300; for tuition at Groton, \$240 per quarter except for the summer quarter which is \$120; fourth year (if spent in Boston), \$500.

#### LABORATORY FEES AND DEPOSITS

1. For certain courses in household economics, business methods, typewriting, chemistry, biology, and physics, an additional fee is charged to cover the cost of the materials used. These fees are as follows:

## GRADUATION FEE

A graduation fee of \$5, which includes the cost of the diploma, is required of all candidates for the degree.

## PAYMENTS

The first bill includes one-half of the annual charge for tuition, the first payment of the laboratory fees, the deposit required in science courses, and one-half of the annual charge for residence. The second bill includes the remainder of the annual charge for tuition, laboratory fees, and residence. Payments are due on the first day of classes in September and in January, and students are expected not to continue in their classes after the end of the second full week of classes unless their bills have been paid or adjusted.

A fee of ten dollars, to be deducted from the first tuition payment, is required at the time of application. This fee is not returned if the application is withdrawn, or if the applicant is not able to meet the entrance requirements. The fee is not required in the cases of applicants for the briefer programmes in the Schools of Social Work and Public Health Nursing.

A student who withdraws during the College year is charged for tuition nine dollars for each week or fraction thereof. The minimum fee is ten dollars. The date of withdrawal is considered that on which notice is received by the Dean. Checks should be made payable to Simmons College.

Students are admitted to the Prince School for the full programme only, which covers an academic year beginning in September and ending in June. A student who withdraws because of illness or for reasons approved by the Director is charged \$11.25 for each week or fraction thereof, except for the first week for which the minimum fee is \$10.

## SCHOLARSHIPS AND STUDENT AID

Financial assistance is available through a limited number of scholarships and gifts for student aid, and from a students' loan fund.

Candidates for financial aid should make written application to the Dean of the College before May 1 for consideration at the June meeting, or before August 15 for the September meeting. A form for this purpose is provided on request. A personal conference with the Dean and the Committee on Scholarships and Student Aid is usually required before the aid is granted, and the continuation of it is in every case dependent upon the student's character and ability, as shown in her College work.\*

Opportunities for service in connection with the College may be provided in certain instances. Students who desire to earn any part of the cost of residence may receive information upon written application to the Dean.

### SCHOLARSHIPS

A number of scholarships have been founded for the aid of meritorious students. Subject to any special conditions established by the donors, these scholarships are ordinarily awarded to those students in the third and fourth years of their courses who are in need of pecuniary assistance and who have shown themselves most worthy of encouragement. These scholarships are the following:

The *Sewall Scholarships*, derived from the accumulated fund of the former Boston Cooking School Corporation and available for two students in the School of Household Economics.

*\* Because of limited resources the Committee on Scholarships and Student Aid cannot ordinarily consider, previous to entrance, applications from college graduates or from students entering with advanced standing. This does not apply to students seeking admission to the Prince School or to programmes at the School of Social Work, who may be considered for financial aid upon application to the Director of the School.*

The *Sarah Orne Jewett Scholarship*, contributed by friends of the late Sarah Orne Jewett, preference to be given to a student from Maine.

The *Mary Morton Kehew Scholarship*, established as a memorial by the family of the late Mrs. Mary Morton Kehew, for many years a member of the Corporation of Simmons College.

The *May Alden Ward Memorial Scholarship*, established by various organizations and individuals in memory of the late Mrs. May Alden Ward.

The *Sarah E. Guernsey D. A. R. Scholarship*, established by the Massachusetts Chapter of the Daughters of the American Revolution in honor of Mrs. Sarah E. Guernsey, a former President-General of the National Society. In its award preference is to be given to an orphan of an American soldier.

The *Mrs. Winthrop Sargent Scholarships*, three in number, established in memory of the late Mrs. Winthrop Sargent of Boston, for the benefit of students in the School of Household Economics.

The *Nora Saltonstall Scholarship*, a memorial scholarship for the benefit of a student in the School of Social Work.

The *Dorothy Spaulding Scholarship*, preference being given to a graduate of Potter Academy, in Sebago, Maine.

The *Sutter Memorial Scholarship*, established in memory of the late Emma M. Sutter.

The *Caroline T. Slater Scholarship*, a gift of the trustees of the Andrew C. Slater Fund. In its award preference is to be given to a student from Massachusetts.

The *Women's Scholarship Association Fund Scholarship for Jewish Girls*, to be awarded to a student in the entering class.

The *Winifred Armstrong Scholarship*, for the benefit of a student from Calais, Maine.

The *Maria Howard Hilliard Memorial Fund Scholarship*, preferably for a student in the School of Household Economics.

The *B. Marion Brown Memorial Fund Scholarship*, for a student in the School of General Science or for one in the School of Household Economics who is specializing in chemistry.

The *Katharine Lent Stevenson Scholarship*, for the benefit of a member of the Woman's Christian Temperance Union, which reserves the right to appoint or approve recipients of the scholarship. Beneficiaries must agree to devote as many years, after the completion of the college course, to social work along the line of effort of the W.C.T.U. as have been spent in enjoying the benefit of the scholarship.

The *Amasa J. Whiting Scholarship*, to assist in the payment of the tuition of a worthy and deserving student.

The *Microcosm Scholarship*, provided from funds accumulated by the successive boards of editors of the *Microcosm*.

The *Frances Rollins Morse Memorial Scholarship*, established by friends of the late Miss Morse, a charter member of the Corporation and for many years a devoted friend of the College and its students. It will be awarded to the applicant in the senior class who is regarded as most worthy of recognition.

The *Lillian Clark Brown Scholarship*, preference being given to a resident of New Britain, Connecticut, in need of financial assistance.

In addition to the preceding endowed scholarships, the Student Government Association has provided a scholarship available in the college year 1933-34.

### THE ALUMNAE HONOR AWARDS

Two prizes, of one hundred dollars each, are awarded annually to the two fourth-year students who are most distinguished for scholarship and general excellence.

### STUDENT AID

For several years an appropriation has been made by the Committee of the Permanent Charity Fund for the relief of needy students. Annual gifts are received and placed at the disposition of the Dean for similar purposes. Grants from these funds do not involve obligation of repayment.

### LOAN FUNDS

A Students' Loan Fund has been accumulated from the repayments of scholarship loans of previous years, and the income from this fund, together with appropriations by the Corporation, may be loaned by the Committee on Scholarships and Student Aid to any students needing assistance, upon an agreement to repay the amount of the loans without interest beginning on the first day of November following graduation or withdrawal, at the rate of five dollars a month for eight months, and thereafter at the rate of ten dollars a month until the loan is paid in full. The Dorothea L. Dix Fund and the Women's Scholarship Association Loan Fund are also available for loans, the latter preferably to juniors and seniors.

A special loan fund for students in the graduate years of the School of Social Work has been founded through the generosity of Mrs. Clarence Gamble of Philadelphia. The conditions of the loan and its repayment may be learned upon application to the Director of the School of Social Work.

## COURSES OF INSTRUCTION

UNLESS it is otherwise stated in the description, each course occupies four periods (or hours) of forty-eight minutes each a week. Laboratory and practice exercises occupy two or three periods, and other exercises one period. Whenever a course varies from the normal four periods, the total number of hours a week is indicated.

The requirements for the different years in the various programmes are shown on the preceding pages in the outlines of the programmes in each School.

Courses indicated by numerals are given for the full college year unless otherwise stated.

Courses indicated by letter (*e.g.*, Chemistry B) are not counted toward a degree, unless taken in connection with additional work prescribed by the Faculty.

The number of year hours for each course is indicated.

Courses for the first third begin September 18; for the second third, December 4; for the last third, March 5.

Courses for the first half begin September 18; for the second half, January 22. (This does not apply to the HV programme.)

## ART

### FINE ARTS 1.

[2 YR. HRS.

*History of Fine Arts.* The aim of this course is to give a general view of the development of painting, sculpture, and architecture from their earliest beginnings to the present time. Some account is taken of the decorative arts of Renaissance Italy and eighteenth century France. Distinguished examples are shown by lantern slides, or visited in the museums of Boston and Cambridge, and discussed with the view of establishing a practicable and usable basis for determining degrees of artistic excellence. Lectures, reading, study of lantern slides, photographs, and the collections of the Museum of Fine Arts, the Fogg Art Museum, and Fenway Court.

MR. BUSH.

*Two hours a week.*

## FINE ARTS 2.

[2 YR. HRS.]

*History of Architecture.* This course is designed to provide suitable background for a fundamental appreciation of architecture on the part of the lay student, and at the same time to include sufficient technical treatment to furnish a substantial elementary foundation in architectural principles for the beginning professional student. The development extends from ancient Egypt to a consideration of modern American and European trends. Lectures, lantern slides, collateral reading, and visits to the museums of Boston and Cambridge.

Mr. BUSH.

*Two hours a week.*

## FINE ARTS 3.

[2 YR. HRS.]

*Modern Art.* A consideration of the French painters since Cezanne, of the French sculptors since Rodin, and of contemporary European and American artists. Primarily an appreciation course. Lectures, lantern slides, and consideration of museum pieces.

Open to students who have completed *Fine Arts 1*, or the equivalent. The number of students is limited.

*Two hours a week.*

Not given in 1933-34.]

## FINE ARTS 4.

[2 YR. HRS.]

*Oriental Art.* A survey of the philosophic backgrounds of the Orient, with consideration of the sculpture and painting of Persia, India, China, and Japan. Lectures, lantern slides, and museum study.

Mr. BUSH.

Open to students who have completed *Fine Arts 1*, or the equivalent. The number of students is limited.

*Two hours a week.*

## DESIGN 1.

[2 YR. HRS.]

A fundamental appreciation course in the study of line, mass, form, color, and general art principles, as applied to commercial illustration, house decoration, and costume design.

Assistant Professor GARDNER.

*Three lectures and one laboratory exercise (total, five hours) a week during the first half.*

## DESIGN 2.

[4 YR. HRS.]

This course continues the study of art principles begun in *Design 1*, and presents historic design as a basis for developing designs adapted

to contemporary costume, accessories, and fabrics. It includes a consideration of the fundamental principles of costume design, and of historic costume with its application to modern dress. A study of line and color with reference to different types of individuals is made. The laboratory time is devoted to the fundamentals of technique, rendering, and costume sketching.

Assistant Professor GARDNER.

Open only to students who have completed *Design 1*.

*Two lectures and two laboratory exercises (total, six hours) a week.*

### DESIGN 3.

[4 YR. HRS.

The first third includes a study of the various types of American furniture, draperies, wall paper, pottery, and glass which developed in response to conditions of life in America from colonial times to the present.

During the second and last thirds consideration is given to the characteristics and influence of furnishings and accessories, from the Renaissance to the twentieth century, on succeeding periods, with case problems in the selection of interior ensembles for American homes of moderate income with special attention to color harmonies, and concrete applications of budget apportionments for a completely appointed house.

Assistant Professor GARDNER.

Open to students who have completed *Design 1* and 2.

*Three laboratory exercises (total, six hours) a week.*

### DESIGN 4.

[4 YR. HRS.

*Design and Landscape Construction.* For students in the School of Landscape Architecture only.

Mr. STURTEVANT.

*Three laboratory exercises (total, seven hours) a week.*

### DESIGN 5.

[2 YR. HRS.

A course similar to *Design 1* but with more general application.

Assistant Professor GARDNER.

*Given during the second half.*

## BIOLOGY AND HEALTH

### BIOLOGY 1.

[2 YR. HRS.

*General Biology.* Lectures, recitations, and laboratory work. This course aims to acquaint the student with the fundamental phenomena of living things, and with general biological laws and

theories. Wherever possible, biological principles are illustrated by the laboratory study of both plant and animal forms.

Associate Professor HOLT, Mrs. SARGENT, Miss NEWTON, Miss YOUNG.

*Biology 2, 3, 4, and 5 are open only to students who have completed Biology 1, or the equivalent.*

*One lecture, one recitation, and two laboratory exercises (total, six hours) a week during the second half.*

#### BIOLOGY 2.

[2 YR. HRS.]

*Biology and Physiology.* Lectures, recitations, and laboratory work. This course introduces the subject of biology as a basis for the study of cell function and physiology. In the physiology the aim is to treat most of the topics in outline while amplifying the subject of nutrition. The central facts dwelt upon are those which bear on the digestion of food, its transformations and service in the body, and the balance of income and outgo.

Mrs. SARGENT.

*One lecture, one recitation and two laboratory exercises (total, six hours) a week during the first half. Repeated in the second half.*

#### BIOLOGY 3.

[2 YR. HRS.]

*Bacteriology.* Lectures, recitations, and laboratory work. The course is designed to give a general knowledge of bacteria, yeasts, and moulds, and their application to the affairs of daily life. Special attention is paid to the place of micro-organisms in nature and their relation to problems of food preparation and preservation, and to health. Modern methods are used in preparing cultures for the laboratory and in the study of bacteria in air, water, milk, and ice. The course includes some study of the microscopic methods of detecting pathogenic bacteria.

Professor HILLIARD, Miss KELLY, Miss YOUNG.

*One lecture, one recitation, and two laboratory exercises (total, six hours) a week during the first half. Repeated in the second half.*

#### BIOLOGY 4.

[4 YR. HRS.]

*Comparative Anatomy and Physiology of Vertebrates.* Lectures, recitations, and laboratory work. The first part of the course deals with comparative anatomy of vertebrates, with emphasis upon the evolution of mammalian structures. The latter part deals mainly with human physiology. The subjects discussed in the lectures include the physiology of the central nervous system, the sense organs,

the muscular system, circulatory system, respiratory system, excretory system, endocrine system, and metabolism.

The laboratory work supplements the lectures, and includes individual work by the student on contractile and nerve tissues, circulation, metabolism, endocrines, and sense organs.

Associate Professor HOLT, Mrs. SARGENT, Mr. RICHARDSON.

Open only to students who have completed *Biology 2* and *3*, or *Biology 14* and *15*, *Chemistry 1*, and *Physics 1*.

*Four laboratory exercises (total, eight hours) a week during the first third; one lecture and three laboratory exercises (total, seven hours) a week during the second and last thirds.*

#### BIOLOGY 5.

[4 YR. HRS.

*Anatomy and Physiology of Vertebrates.* This course is planned for students in the second year of the H I programme. It is introduced by a study of mammalian anatomy with consideration of the development of the systems, followed by a more general course in physiology, with emphasis upon metabolism.

Assistant Professor WITTON, Miss NEWTON, Mr. RICHARDSON.

Open only to students who have completed *Biology 2* and *3*, or *Biology 14* and *15*, and *Chemistry 2*.

*Four laboratory exercises (total, eight hours) a week during the first half; one lecture and three laboratory exercises (total, seven hours) a week during the second half.*

#### BIOLOGY 6.

[2 YR. HRS.

*The Prevention of Communicable Diseases.* This course covers the same material as that described under *Biology 7*. It is given for the Public Health Nursing group and emphasizes those special problems in communicable disease prevention that are of most importance to them.

Professor HILLIARD.

Open only to students who have completed *Biology 3*, or *Biology 15*, or *Biology D*, or the equivalent.

*Given during the first half.*

#### BIOLOGY 7.

[2 YR. HRS.

*The Prevention of Communicable Diseases.* The discussion of sources and modes of infection, and the theories of infection and immunity, is followed by a detailed consideration of specific diseases and their prevention. The course gives an appreciation of the modern health movement and a scientific knowledge of the preparation and uses of vaccines and antitoxins; the Schick test and toxin-antitoxin treat-

ment; the serum treatment of pneumonia and scarlet fever; and other matters of present interest.

Professor HILLIARD.

Open only to students who have completed *Biology 3*, or *Biology 15*, or *Biology D*, or the equivalent.

*Two hours a week.*

#### BIOLOGY 8.

[2 YR. HRS.]

*Public Health Laboratory Methods.* This course is intended for students who wish to become either assistants in the laboratories of boards of health or assistants to physicians. The course includes the laboratory diagnosis of the more common infectious diseases, such as diphtheria, tuberculosis, pneumonia, typhoid fever, and malaria, and also the sanitary analysis of water and milk. The discussions deal with the actual problems in the work of boards of health.

Assistant Professor BECKLER.

Open without restriction only to students who have a grade not lower than C in *Biology 3* or 15 and who have completed, or are taking, *Biology 7*.

*Two laboratory exercises (total, four hours) a week.*

#### BIOLOGY 9.

[4 YR. HRS.]

*Public Health Science.* The discussions concern the numerous problems affecting public health arising from modern conditions of living and working. Among the questions considered are: health organization and administration; water, milk, and other food supplies; ventilation; sewage and garbage disposal; maternal, infant and child health; health education and industrial hygiene. A health survey of some community or a special field study is included in the course.

Professor HILLIARD.

An elective, with the approval of the instructor, for students who are taking or have completed *Biology 3*, or *Biology 15*, or the equivalent.

#### BIOLOGY 10.

[4 YR. HRS.]

*Embryology, Histology, and Histological Technique.* Lectures, recitations, and practical training in embryological and histological methods. The vertebrate embryology is based upon the development of the chick and of the pig. The histology deals with the principal animal tissues and stresses technical procedures.

Associate Professor HOLT.

Open to students who have completed *Biology 2* and 3, or *Biology 4*, with a grade not lower than C.

*Four laboratory exercises (total, eight hours) a week.*

## [BIOLOGY 11.]

[2 YR. HRS.]

*Evolution and Genetics.* This course is general and elementary in character and treats of evolution as a principle in cosmic, or physical, as well as organic nature. The latter part of the course treats of the laws of heredity and their practical application to human problems.

Professor HILLIARD, Associate Professor HARRIS, Associate Professor HOLT.

An elective for Seniors in any School.

*Two hours a week.*

Not given in 1933-34.]

## BIOLOGY 12.

[1 $\frac{1}{3}$  YR. HRS.]

*Municipal and Industrial Hygiene.* The problems of sanitation and hygiene in communities and in industry are treated in their relation to the training of public health nurses.

Professor HILLIARD.

*Two hours a week. January to June.*

## BIOLOGY 13.

[1 $\frac{1}{3}$  YR. HRS.]

*Hospital Laboratory Methods.* This course gives practice in the elements of blood analysis and urinalysis, Wassermann technique, the preparation of vaccines, and examination for intestinal parasites. The instruction in Wassermann technique is given at the State Laboratory under Dr. Hinton, the Director.

Mrs. MONTAGUE, Dr. HINTON.

Open only to students who have completed *Biology* 4 or 5, and *Chemistry* 8.

*One lecture and three laboratory exercises (total, seven hours) a week during the last third.*

## BIOLOGY 14.

[2 YR. HRS.]

*General Biology.* This is an introductory course in the biological sciences which lays the foundation for other courses in the department. It deals with the fundamental phenomena of living things and with general biological laws and theories, using plant and animal forms for illustration.

Associate Professor HOLT, Miss KELLY, Mr. RICHARDSON.

*One lecture and three laboratory exercises (total, seven hours) a week during the first half.*

## BIOLOGY 15.

[2 YR. HRS.]

*General Bacteriology.* This course follows *Biology* 14 and aims to give a general knowledge of the bacteria and other micro-organisms. Considerable emphasis is placed upon technical procedure in the

laboratory, but the discussions deal with the manifold applied fields of the subject such as sanitation, medicine, dairying, agriculture and immunity.

Professor HILLIARD, Assistant Professor WITTON, Miss KELLY.

Open to students who have completed *Biology 14* or the equivalent.

*One lecture and three laboratory exercises (total, seven hours) a week during the second half.*

#### BIOLOGY 16.

[2 YR. HRS.

*Human Physiology.* This course deals with the general principles of physiology, special emphasis being placed upon muscle-nerve, cardio-vascular function as it relates to problems of physical education.

Miss NEWTON.

*One lecture, one recitation and two laboratory exercises (total, six hours) a week during the first half.*

#### BIOLOGY 17.

[1 YR. HR.

*Public Health Science.* The principles of sanitary science and preventive medicine are dealt with in an elementary way in this course. The object is to survey the whole field of public health science with emphasis on application to promote health in the community and in schools.

Professor HILLIARD.

*Two hours a week during the second half.*

#### BIOLOGY 20.

*Thesis.* Fourth-year and graduate students whose previous records warrant it, may undertake original research under the advice of the members of the Department.

Professor HILLIARD, Associate Professor HOLT, Assistant Professor BECKLER.

*The hours and credits are specifically determined for each student.*

#### BIOLOGY COLLOQUIUM.

Seniors specializing in biology are required to attend the department colloquium which meets once a week throughout the year.

#### BIOLOGY 100.

[1 YR. HR.

*General Hygiene.* The habits of right living, both as to individual conduct and social and community relations, are considered. Personal hygiene, the problems of sex, mental hygiene, public hygiene,

and the prevention of infectious diseases are surveyed so as to lay the groundwork for healthy, efficient college life.

Professor HILLIARD, Dr. MEREDITH and other lecturers.

*One lecture a week throughout the year.*

#### BIOLOGY A.

*Elementary Physiology.* This course is planned for students in Institutional Management, to give a general survey of human physiology and hygiene as a foundation for the work in dietetics.

Associate Professor HOLT.

Offered in special programmes in Household Economics to students who have completed *Chemistry B* or the equivalent.

*One lecture and two laboratory exercises (total, five hours) a week during the second third.*

#### BIOLOGY B.

*Elementary Bacteriology.* This course is planned for students in Institutional Management. The bacteria, yeasts, and moulds are studied and discussed, chiefly from the point of view of the householder, and in their economic and sanitary aspects. Some of the lectures deal with the fundamentals of public health science.

Professor HILLIARD, Miss KELLY.

Offered in special programmes in Household Economics to students who have completed or are enrolled in *Chemistry B* or the equivalent.

*Two lectures and two laboratory exercises (total, six hours) a week during the last third.*

#### BIOLOGY C.

*Anatomy and Physiology.* This course is planned for students in hospital training schools for nurses. Lectures, recitations, and demonstrations.

Assistant Professor WATSON, Miss NEWTON.

*Two lectures, one recitation, and two laboratory exercises (total, seven hours) a week during the first half. Repeated in the second half.*

#### BIOLOGY D.

*Elementary Bacteriology.* This course is planned for students in hospital training schools for nurses, to give a fundamental knowledge of bacteriology as related to nursing. The course also includes the consideration of problems of sanitary science, as related to infectious diseases. Lectures and laboratory practice.

Assistant Professor WITTON, Miss KELLY, Miss YOUNG.

*One lecture, one recitation, and two laboratory exercises (total, six hours) a week during the first half. Repeated in the second half.*

## CHEMISTRY

## CHEMISTRY 1.

[4 YR. HRS.]

*Inorganic Chemistry.* A study of the fundamental principles and the general descriptive matter pertaining to inorganic chemistry. This course is designed for students who intend to pursue further the study of chemistry.

Professor MARK, Assistant Professor NEAL, Mrs. PRATT, Miss GRANARA, Miss DUDLEY, Mrs. MARK.

*One lecture, two recitations, and two laboratory exercises (total, seven hours) a week.*

## CHEMISTRY 2.

[4 YR. HRS.]

*General Chemistry.* A course devoted to both inorganic and organic chemistry. About two-thirds of the time is spent upon the fundamental principles and the descriptive matter of inorganic chemistry and about one-third of the time upon an outline of organic chemistry. The course is intended for students who are to study chemistry for one year only.

Professor MARK, Assistant Professor NEAL, Mrs. PRATT, Miss GRANARA, Mrs. MARK.

*One lecture, two recitations, and two laboratory exercises (total, seven hours) a week. One lecture is substituted for one laboratory exercise in the last third.*

## CHEMISTRY 3.

[4 YR. HRS.]

*Organic Chemistry and Physiological Chemistry.* A beginning course in organic chemistry presenting the typical compounds of carbon. Approximately half the course is devoted to material usually presented in elementary courses in physiological chemistry. Particular reference is made to the compounds found in plant and in animal tissues, and to the changes which food constituents undergo in cooking and in digestion.

Assistant Professor SARGENT, Miss DUDLEY.

*One lecture, two recitations, and two laboratory exercises (total, seven hours) a week.*

## CHEMISTRY 4.

[4 YR. HRS.]

*Organic Chemistry.* A general course in organic chemistry designed for students who are to take their major work in science.

Miss GRANARA.

*Chemistry 11 is open only to students who have a grade not lower than C in Chemistry 4.*

*Three classroom exercises and one laboratory exercise (total, seven hours) a week.*

## CHEMISTRY 5.

[2 YR. HRS.]

*Quantitative Analysis.* A study of the fundamental methods of quantitative analysis designed to prepare for more advanced courses in quantitative analysis.

Associate Professor HARRIS.

*One lecture and three laboratory hours (total, four hours) a week.*

## CHEMISTRY 6.

[4 YR. HRS.]

*Quantitative Food Analysis.* A laboratory course in the fundamental methods of quantitative analysis and their application to food analysis, including the standard methods used in determining the composition of foods, and typical methods for detecting food adulteration.

Associate Professor HARRIS.

Open only to students who have completed *Chemistry 3* or 4.

*One lecture and seven laboratory hours (total, eight hours) a week.*

## CHEMISTRY 7.

[2 YR. HRS.]

*Quantitative Methods.* A course designed to acquaint students with the importance, problems and limitations of quantitative work, through the study of some elementary methods of analysis, including some food analysis.

Associate Professor HARRIS.

Open only to students who have completed *Chemistry 3*.

*One lecture and three laboratory hours (total, four hours) a week.*

## CHEMISTRY 8.

[2 $\frac{2}{3}$  YR. HRS.]

*Quantitative Biochemical Methods.* A laboratory course devoted to the study of standard methods of quantitative chemical analysis used in the clinical laboratories of hospitals and in medico-chemical investigation.

Associate Professor HARRIS.

Open to students who have completed *Chemistry 5*. This course should be taken in conjunction with *Biology 13* which deals with hospital laboratory methods from the biological side.

*One lecture and seven laboratory hours (total, eight hours) a week during the first and second thirds.*

## CHEMISTRY 9.

[2 YR. HRS.]

*Advanced Quantitative Analysis.* A continuation of *Chemistry 5* including specialized methods such as those of gas analysis.

Associate Professor HARRIS.

Open to students who have completed *Chemistry 5*.

*One lecture and three laboratory hours (total, four hours) a week.*

CHEMISTRY 10.

[1 $\frac{1}{3}$  YR. HRS.]

*Qualitative Analysis.* A study of the standard methods of qualitative analysis, with emphasis on the underlying theories of solution.

Assistant Professor NEAL.

*Two lectures and six laboratory hours (total, eight hours) a week during the first third.*

CHEMISTRY 11.

[2 $\frac{2}{3}$  YR. HRS.]

*Advanced Organic Chemistry.* A course planned to follow *Chemistry 4*, with special emphasis placed on the chemistry of the aromatic compounds. The laboratory work includes typical preparations, and the quantitative determination of carbon, hydrogen, and nitrogen in organic compounds.

Assistant Professor SARGENT.

Open only to students who have a grade not lower than C in *Chemistry 4*.

*Two lectures and six laboratory hours (total, eight hours) a week during the second and last third.*

CHEMISTRY 12.

[4 YR. HRS.]

*Advanced Inorganic Chemistry.* A review of descriptive inorganic chemistry, theoretical chemistry, the principles of analytical chemistry, and the relations of these branches to one another, with practice teaching in the laboratory and reports on articles in current chemical periodicals.

Professor MARK.

*Three lectures and one laboratory exercise (total, five hours) a week.*

CHEMISTRY 13.

[2 YR. HRS.]

*Physical Chemistry.* A general course presented from the kinetic, rather than the thermodynamic, point of view.

Associate Professor HARRIS.

Open only to students who have studied or are studying quantitative analysis.

*One lecture and one laboratory exercise (total, four hours) a week.*

CHEMISTRY 20.

*Thesis.* Fourth-year and graduate students whose previous records warrant it may undertake original research under the advice of the members of the department.

*The hours and credits are specifically determined for each student.*

## CHEMISTRY A.

*Elementary Chemistry.* A half-year course for students following the H V programme. Special attention is given to the chemistry of the human body.

Assistant Professor NEAL, Mrs. PRATT.

*One lecture, two recitations, and one laboratory exercise (total, five hours) a week during the first half. Repeated in the second half.*

## CHEMISTRY B.

*Elementary Chemistry.* A brief course in general elementary chemistry together with the principles of heat and electricity, with emphasis on the chemistry involved in everyday activities, such as cooking and cleaning.

Mrs. PRATT.

*One lecture, two recitations, and two laboratory exercises (total, seven hours) a week during the first third.*

## ECONOMICS

## ECONOMICS 1.

[4 YR. HRS.]

*Principles of Economics.* Discussions and special reports. A general introduction to the fundamental principles of economics, designed, by the use of illustrations from familiar affairs, to give the student power to apply these principles to actual conditions.

Professor STITES, Assistant Professor FRIEDBERG, Mr. SHAFFNER, Mr. FLEMING.

## ECONOMICS 3.

[2 YR. HRS.]

*Economics of Consumption.* Discussions and reports. This course includes a study of the influences acting on the consumption of wealth, and the extent to which control of these influences is possible. Treatment of the subject involves investigation of the standards and costs of living among various groups of consumers in the United States. In this connection the subjects of housing, food, clothing, health, education and recreation are approached from the point of view of present conditions, and of the opportunities afforded the consumer to increase the satisfactions obtainable from a given outlay.

Professor STITES.

An elective for students who have completed *Economics 1*, or the equivalent.

*Two hours a week.*

## ECONOMICS 4.

[2 YR. HRS.]

*Statistical Methods.* Lectures, laboratory and field work. A survey of the methods by which statistical data are collected, presented,

and analyzed. The course includes the consideration of such problems as sources of data, collection of data, tabulation, graphic presentation, averages, dispersion, skewness, correlation, index numbers, and analysis of time series.

Assistant Professor FRIEDBERG.

An elective for students who have completed *Economics 1*, or the equivalent.

*Two hours a week.*

Mr. FLEMING.

An elective for students who have completed *Economics 1*, or the equivalent.

*Two hours a week.*

## ENGLISH \*

The courses in English furnish instruction in both composition and literature. Practice in composition is provided mainly in certain courses; but every written exercise in an English course is a test in composition and may be considered a failure on that ground alone.

### ENGLISH 1.

[3 YR. HRS.]

*Composition, Rhetoric, and Introduction to English Literature.* Recitations, lectures, collateral reading, themes, and conferences. The course includes a study of poetic forms. Expository, descriptive, and narrative themes are required, which are discussed in personal conferences between the writers and their instructors, and which are in certain cases rewritten.

Assistant Professor SLEEPER, Assistant Professor DODGE, Assistant Professor HOWE, Assistant Professor DE MILLE, Assistant Professor CROCKETT, Assistant Professor MATLACK, Miss NOYES, Mr. WATKINS, Mr. SYPHER.

*Three hours a week.*

Associate Professor HOLBROOK, Assistant Professor DODGE.

An elective for students who have completed *English 1*, or the equivalent. Sophomores intending to elect *English 9* or *12* are strongly advised to elect *English 26*.

*Two hours a week.*

#### ENGLISH 28.

[2 YR. HRS.]

*Epic and Romance.* A review of the types of great epics and romances (such as Homer, Dante, *The Volsunga Saga*, *The Song of Roland*, the Arthurian romances, and Spenser), with attention to cultural, social, and national backgrounds and to the modern uses of traditional material.

MR. SYPHER.

An elective for students in the third and fourth years.

*Two hours a week.*

#### ENGLISH 29.

[2 YR. HRS.]

*Reading and Speaking.* A study of the oral presentation of widely varied material in prose and verse, with emphasis upon interpretation and persuasiveness. The selections for practice include occasional oral composition, and frequent group projects. Specific training in the control of the voice is an essential part of the course.

MISS NOYES.

An elective for students in the third and fourth years. The number of students is limited to sixteen.

*Two hours a week.*

### HISTORY AND GOVERNMENT

#### HISTORY 1.

[4 YR. HRS.]

*History of European Civilization since the Middle Ages.* The major part of the class work consists of discussions based on the use of text-books and collateral reading. There are occasional lectures, map exercises, and individual conferences. The course aims to give the student a training in reading and note taking, the principles of historical reasoning, and an appreciation of the main factors in European culture and institutions from the close of the Middle Ages to the present time.

Professor VARRELL, Associate Professor STEIGER, Assistant Professor TRYON, Mr. PALMER, Mr. RANKIN.

#### HISTORY 2.

[4 YR. HRS.]

*Modern History since 1870.* Lectures, discussions, map exercises, reports, and conferences. Though the course deals mainly with European history, attention is given to the development of the

states of the Western Hemisphere, to the opening of the Orient, to economic imperialism, the Great War, and present-day world problems.

Professor VARRELL.

### HISTORY 3.

[4 YR. HRS.

*History of American Civilization.* The course covers the period from the earliest discoveries to the present time, emphasizing the institutional and political development, the growth of democracy, industrialism, and the influence of the frontier. In addition to the class work, which is based upon lectures and discussion, there are reports on outside reading in standard works of history and biography.

Assistant Professor TRYON.

An elective for students who have had *History 1*, or the equivalent.

### HISTORY 4.

[2 YR. HRS.

*Aspects of Citizenship.* The course is designed to introduce the student to some of the most important political and social problems of the present day. Outside reading in current magazines and newspapers supplements the textbooks.

Mr. RANKIN.

Open only to first-year students.

*Given during the second half.*

### HISTORY 5.

[2 YR. HRS.

*Social and Intellectual History of the United States.* The course deals with the everyday life of the people in its economic, social, artistic, and intellectual phases in an effort to explain the origin and the means through which contemporary characteristics have developed. Outside reading and individual studies of specific subjects supplement lectures and class discussions.

Assistant Professor TRYON.

*Two hours a week.*

### HISTORY 6.

[2 YR. HRS.

*Social and Intellectual History of Modern Europe.* A study of the social, economic, and especially the cultural development of western Europe since the Renaissance. This course aims to give the student freedom to investigate phases of modern life in which she may be especially interested.

Mr. PALMER.

*Two hours a week.*

## GOVERNMENT 1.

[2 YR. HRS.]

*The Problem of Government.* Lectures, outside reading, and class discussion. The course aims to acquaint the student briefly with the principles of political science, the historical development of government in the United States, and the practical problems of citizenship.

Professor VARRELL.

*Two hours a week.*

## HOUSEHOLD ECONOMICS

## CLOTHING 1.

[2 $\frac{2}{3}$  YR. HRS.]

*Elementary Garment Making.* Instruction is provided in the use of the sewing machine and its labor-saving attachments; in the interpretation and use of commercial patterns; and in garment construction as applied to underwear, simple dresses, and children's clothing. Cotton or linen materials are used unless permission for the use of other materials is given by the instructor.

Each student takes *Clothing 5* for one third to complete the year.

Associate Professor ABBOTT, Miss DAVIS.

*One lecture and three laboratory exercises (total, seven hours) a week for two thirds.*

## CLOTHING 2.

[4 YR. HRS.]

*Costume Design and Dressmaking.* This course considers the development of costume design through the handling of materials, fashion illustrations, and the making of garments rather than through the technique of sketching. The time is spent in a study of line and color in relation to different types of individuals, the choice of garments suitable for various occasions such as school, afternoon, and evening wear, with appropriate accessories, and an application of these principles to members of the class. Silk and woolen garments are made from commercial patterns with such adaptations and modifications as are necessary to suit the individual.

Miss DAVIS.

Open to students who have completed *Clothing 1, 5* and *Design 1*.

*One lecture and three laboratory exercises (total, seven hours) a week.*

## CLOTHING 3.

[2 $\frac{2}{3}$  YR. HRS.]

*Costume Draping and Designing.* This course includes the designing from plain drafted patterns of various types of blouses, skirts, and dresses; and draping or modeling on the dress form. Special consideration is given to the study of lines, proportions, and adap-

tation of design to various types of figures. For this work all garments are made from inexpensive muslin, the cost of which is covered by the fee. The course continues with the study of garment construction, with emphasis on the making and pressing of garments, using wool and silk materials.

In choice of designs and materials for these garments, students are expected to apply principles gained in *Design 2* and *Clothing 1, 5*.

MISS DAVIS, Associate Professor ABBOTT.

Open only to students who have completed *Clothing 1, 5* and *Design 2*.

*One lecture and three laboratory exercises (total, seven hours) a week during the first and second thirds.*

#### CLOTHING 4.

[1 $\frac{1}{3}$  YR. HRS.

*Millinery.* This course is planned to meet the needs of students who are preparing to teach. It provides instruction in the making and covering of frames, and the fitting and trimming of hats, with a study of the methods and materials used in the trade.

Associate Professor ABBOTT, Miss DAVIS.

*One lecture and three laboratory exercises (total, seven hours) a week during the last third.*

#### CLOTHING 5.

[1 $\frac{1}{3}$  YR. HRS.

*Textiles.* This course includes a study of the important textile fibres, fabric analysis, and manufacturing processes as related to the appearance, use, and durability of a fabric.

Associate Professor ABBOTT.

*One lecture and three laboratory exercises (total, seven hours) a week during the first third. Repeated in the second and last thirds.*

#### CLOTHING 6.

[2 YR. HRS.

*Selection.* The course includes the discussion of the elements involved in the selection of garments and textile fabrics for clothing and house furnishing; budgets and accounts in relation to clothing; and economic factors influencing prices.

Associate Professor ABBOTT.

Open only to students who have completed *Clothing 5*.

*Two hours a week.*

#### DIETETICS 1.

DIETETICS 3.

[1 YR. HR.

Reports on the current literature of dietetics and related sciences.

Professor BLOOD.

Open to students who have completed *Dietetics 1*.

*Two hours a week during the first half. The course is repeated in the second half.*

DIETETICS 4.

[1 YR. HR.

A brief non-technical treatment of the fundamental principles of human nutrition, with special application to the problems of the public health nurse.

Professor BLOOD.

Open to students whose preparation in the basic sciences and nutrition is limited.

*Two hours a week during the second half.*

DIETETICS 5.

[ $\frac{2}{3}$  YR. HR.

A course similar in scope to *Dietetics 4*, but planned for graduate nurses.

Professor BLOOD.

*Two hours a week. March to June.*

DIETETICS 6.

[ $\frac{2}{3}$  YR. HR.

*Current Problems in Nutrition.* A seminar on current literature on nutrition.

Professor BLOOD.

Open to students who have had satisfactory preparation in chemistry and physiology.

*Two hours a week. January to March.*

## DIETETICS 8.

[1 YR. HR.

A brief non-technical treatment of the fundamental principles of human nutrition, with special application to the problems of the student in physical education.

Mrs. BURKE.

Open to students whose preparation in the basic sciences and nutrition is limited.

*Two hours a week during the second half.*

## DIETETICS A.

A brief non-technical treatment of the fundamental principles of human nutrition, with their application to institutional problems.

Professor BLOOD, Assistant Professor HORD.

*Three class hours and one laboratory exercise (total, five hours) a week during the last third.*

## DIETETICS B.

A brief non-technical treatment of the fundamental principles of human nutrition for pupil nurses.

Professor BLOOD, Assistant Professor HORD.

*Two hours a week during the first half. Repeated in the second half.*

## FOODS 1.

[4 YR. HRS.

*Principles of Cookery and Marketing.* Lectures, recitations, and practice. This course presents the principles underlying the preparation of different types of foods. Marketing problems are discussed by special lecturers. The course provides practice in cooking in family quantities. Special divisions are arranged for students who have had cooking in high school.

Professor DOW, Assistant Professor HORD, Miss MACGREGORY, Miss KNIGHT.

*One lecture and three laboratory exercises (total, seven hours) a week.*

## FOODS 3.

[2 YR. HRS.

*Meal Service.* This course consists of the preparation of luncheons for paying faculty guests. It includes conferences, reading and some laboratory exercises which review and extend the principles of food preparation.

Miss FISHER.

Open only to students who have completed *Foods 1*.

*Two lectures and two laboratory exercises (total, ten hours) a week during the first half. Repeated in the second half.*

## FOODS 4.

*Experimental Cookery.* A course offered for individual students approved in advance by the head of the department.

Professor Dow and members of the staff.

*The hours and credits are specifically determined for each student.*

## FOODS 5.

[1 YR. HR.]

A laboratory course in elementary food preparation, to be taken by students in *Dietetics* 4, 5 and 6 who have not had equivalent work.

Miss FISHER.

*Two laboratory exercises (total, four hours) a week during the second half.*

## FOODS A.

*Quantity Cookery and Food Buying.* A survey of the principles of cookery with special reference to preparation for quantity cookery. Accompanied by quantity cookery in the lunchroom and lectures and field trips relevant to quantity food buying.

Professor Dow, Miss FISHER, Miss THAMES.

*Four exercises (total, ten hours) a week during the first and second thirds. Two exercises (total, five hours) a week during the last third.*

## FOODS B.

An elementary course in cookery for pupil nurses.

## HOUSEHOLD MANAGEMENT 2.

[2 YR. HRS.]

This course is based on residence in Pilgrim House, with responsibility for planning and execution of all the work, including the marketing and bookkeeping. It includes conferences, reading and some laboratory exercises which review and extend the principles of food preparation.

Miss MACGREGORY.

*Repeated each half.*

## HOUSEHOLD MANAGEMENT 3.

[1 YR. HR.]

*Income Management.* This course is designed to teach the value of money and the responsibilities connected with its possession. Conscious standards of living as a control of expense, the recognition of true values, and the technique of budgeting are presented through the study of actual problems of individual and family finance.

Miss DONHAM.

*Two hours a week during the first half.*

## INSTITUTIONAL MANAGEMENT 1.

[4 YR. HRS.]

Lectures, conferences, observation, and practice. This course is intended for advanced or mature students who are preparing to take charge of an institution. There are many short units of specialized work. The course covers questions of organization, employment management, schedules, records, equipment, buying, plant location and layout, and general administration. Extensive practice is offered in the various departments of the Women's Educational and Industrial Union and in the College dormitories and lunchroom. Numerous field trips are made for the purpose of observing food production, equipment, and institutional management.

Students are required to eat in representative restaurants from time to time to develop judgment and analytical ability. Twenty-five dollars should be allowed to cover this item.

Associate Professor DODGE, Miss McCARTHY.

*Three lectures and two laboratory exercises (total, eleven hours) a week.*

## LUNCHROOM MANAGEMENT 1

[4 YR. HRS.]

This course aims to give the student an insight into the problems of lunchroom administration. It is a composite course made up of the following units:

(a) Field work under Associate Professor Dodge and Miss McCarthy in the various food departments of the Women's Educational and Industrial Union, coöperating suburban school cafeterias and the Simmons College lunchroom, together with conferences and reports on the field work.

(b) Lectures and discussions by Associate Professor Dodge and by special lecturers covering the problems of organization, administration, employment management, and equipment.

(c) Experience in quantity cookery together with discussion of quantity food buying under Miss Thames in the Simmons College lunchroom.

Students are required to eat in representative restaurants from

time to time to develop judgment and analytical ability. Twenty-five dollars should be allowed to cover this item.

Associate Professor DODGE, Miss McCARTHY, Miss THAMES.

Students taking this course are expected to elect *Accounts 5*. The number of students is limited to forty.

*Three lectures and field work each week (total, 7 hours).*

## LIBRARY SCIENCE

### LIBRARY SCIENCE 1.

[1 YR. HR.

This prevocational library course is offered to aid students to use libraries and library tools in their academic courses, and to give them some vocational guidance and library field work before they enter the technical library science senior programme.

Professor DONNELLY, and staff.

*One class hour and two laboratory or reading hours a week.*

*In the summer of 1933 two weeks of field work will be spent in a public library.*

### BIBLIOGRAPHY 2.

[1½ YR. HRS.

Continues the Bibliography begun in *Cataloguing 1*. It includes foreign bibliography and some subject bibliography.

Miss KAUFFMANN.

*Two hours a week during the second and last thirds.*

### BOOK SELECTION 1.

[2⅔ YR. HRS.

Lectures, discussion, required reading, and practical problems. A general course on the principles and methods of selecting and evaluating books for various types of libraries and readers. During the first third, half of the class periods are given to the consideration of children's literature, its selection and use.

Associate Professor BROTHERTON.

*Four hours a week the first third. Two hours a week the second and last thirds.*

### CATALOGUING, BIBLIOGRAPHY 1.

[2⅔ YR. HRS.

Lectures, reading, observation of catalogues, cataloguing of books, and discussion. A study is made of the application of cataloguing principles and technique to the entry of books in the dictionary card catalogue. Instruction is given in the making of entries and references suited equally to catalogues consisting wholly of typed cards and to those consisting largely of Library of Congress printed cards; also in the arranging, guiding, and labeling of the public catalogue;

and in the constructing and maintaining of the official records of a catalogue department. There is a brief introduction to classed cataloguing. American and English national bibliography is included during the first third.

Associate Professor HYDE, Miss KAUFFMANN, Miss DAVIS.

*Cataloguing: Three lectures and four laboratory hours a week during the first third. Two class hours and three laboratory hours a week during the second and last thirds.*

*Bibliography: One class hour during the first third.*

#### CLASSIFICATION AND ADMINISTRATION 1. [4 YR. HRS.\*

The principles and methods of classification are studied, with special emphasis on book classification systems, particularly the Dewey Decimal and Library of Congress Classifications.

The acquisition and treatment of certain types of publications, as periodicals and government documents, are discussed.

The history and administration of libraries is studied, with emphasis on American library history, and on problems of finance and administration, including the library building and its equipment.

Professor DONNELLY.

*Four class hours and two laboratory hours a week.*

#### CLASSIFICATION AND ADMINISTRATION 2. [1½ YR. HRS.

Required for students who elect the course in School Libraries as a substitute for *Classification and Administration 1* from December to June. It presents in a more condensed form the essential topics considered in *Classification and Administration 1*, and discusses modifications suitable for school libraries.

Professor DONNELLY.

*Two class hours and one laboratory hour a week during the second and last thirds.*

#### FIELD WORK.

Definite provision for observation and practical work is made

1. By assigning students to libraries for a fortnight in the spring of the senior or college graduate year;
2. By setting aside Thursday afternoons for visits to libraries, bookstores, etc., or for other professional contacts;
3. By assigning the four-year group to libraries for a fortnight in the vacation before the senior year.

\* Credit of 1½ yr. hrs. is allowed for the first third of this course for those students who substitute *Classification and Administration 2* for it during the second and last thirds.

As the field work is linked up with all the technical library science courses, and the time for it is contributed from the other courses in varying proportions, no separate credit is given for it.

#### LIBRARY WORK WITH BOYS AND GIRLS AND STORY-TELLING 1.

[2 $\frac{2}{3}$  YR. HRS.]

This course is planned to give definite preparation for work with young people in public or school libraries. It includes a study of books from the standpoint of presentation, value, use, and interest for different ages and groups.

Since story-telling has long proved one of the most effective methods of introducing literature to children, opportunity is given for the study of sources, selection, and adaptation of stories, and for practice in oral presentation.

Associate Professor BROTHERTON.

*Four hours a week during the second and last thirds.*

#### HISTORY OF THE BOOK 1.

[1 $\frac{1}{3}$  YR. HRS.]

The evolution of the book is traced from ancient times to the present day. The Boston Public Library, the Widener Library, the Harvard museums, the Boston Museum of Fine Arts, and the libraries of Brown University furnish remarkable facilities for observation and study in this field. Preceded by some study of book ordering.

Mr. HARASZTI, Miss KAUFFMANN.

*Two hours a week during the second and last thirds.*

#### REFERENCE AND CIRCULATION DEPARTMENTS 1.

[4 YR. HRS.]

In this course are studied problems of the departments which serve library patrons directly, through the issue of books for home use and provision for study and research within the library. The particular functions of each department, the interplay between them, the part played by good methods of publicity, information desks, and readers' aids are considered. The traits and qualities called into play in workers in these departments are investigated. Skill is acquired in the use of reference books and in the technical processes employed in reference and circulation departments.

Assistant Professor BLUNT.

#### SCHOOL LIBRARIES 1.

[1 $\frac{1}{3}$  YR. HRS.]

Lectures, problems, and required reading on the organization, equipment, and administration of school libraries. The course considers the problems of the high school library in particular, but gives some

attention to elementary and normal school libraries. College libraries are not within its scope.

Associate Professor BROTHERTON.

*Two hours a week during the second and last thirds.*

The reading includes selections from Hauptman, Suderman, Fulda, Rosegger, Ebner-Eschenbach, Schnitzler, Wasserman, Thomas Mann and the leading poets, studied with relation to social, economic, and cultural forces. Lectures, discussions, reports of reading, and correspondence.

Associate Professor COFFMAN.

Open to students who have completed *German 2*, or the equivalent.  
This course may be taken in connection with *German 4*.  
*Two hours a week.*

## [ITALIAN 1.]

*Italian Grammar and Modern Prose*. Italian grammar, composition, and reading. Lectures on the history of Italian literature, and collateral reading. This course enables students to read modern Italian, and gives a general idea of the main currents of Italian literary history from its beginnings to the present day. The course is intended primarily for students in the Schools of Library Science and Social Work.

Not given in 1933-34.]

## SPANISH 1.

[4 YR. HRS.]

*Spanish Grammar, Modern Prose, and Prose Composition*. Dictation, sight reading, reading of assigned texts.

Professor GOODELL, Assistant Professor FISHTINE.

## SPANISH 2.

[4 YR. HRS.]

Grammar review, reading of assigned texts and current Spanish publications, sight reading, composition, dictation.

Professor GOODELL, Assistant Professor FISHTINE.

An elective for students who have completed *Spanish 1*, or who are credited with two years of Spanish for entrance.

## [SPANISH 3.]

[2 YR. HRS.]

An advanced course in rapid reading of works by Central and South American authors. Lectures on Central and South American geography, government, literature and so forth. Written reports on outside reading.

An elective for students who have completed *Spanish 2*, or who are credited with three years of Spanish for entrance.

This course may be taken in connection with *Spanish 4*.

*Two hours a week.*

Not given in 1933-34.]

#### SPANISH 4.

[2 YR. HRS.

A course dealing with political and social changes in Spanish life, as illustrated by the literature of various periods. Especial consideration is given to recent and contemporary currents of thought in Spain.

Assistant Professor FISHTINE.

This course may be taken in connection with *Spanish 3*.

*Two hours a week.*

### PHILOSOPHY AND EDUCATION

#### EDUCATION 1.

[2 YR. HRS.

*Principles of Teaching.* An introductory course in teaching. It deals with such topics as the learner, the learning process, methods of classroom procedure, and tests and testing. It takes up both problems of classroom practice and the educational principles which guide the solution of such problems.

Mr. ———.

*Two hours a week.*

After 1933-34 an elective for students who have completed *Psychology 1* or *2*.

#### EDUCATION 2.

[2 YR. HRS.

*History of Education.* A study of world events and forces which have contributed to the shaping and directing of educational progress. Stress is placed upon a study of secondary education, its development, present organization and the place of vocational education in that organization. Study of the textbook is supplemented by lectures, discussions, and collateral reading.

Professor HARLEY.

*Two hours a week.*

#### EDUCATION 3.

[4 YR. HRS.

*Home Economics Education.* This course gives opportunity for the study of progressive methods and for the application of principles of teaching through discussion of problems arising in connection with

observation in public schools and practice teaching in social settlements and public schools.

Professor DOW, Associate Professor ABBOTT, Miss KNIGHT.

*Three class exercises and one teaching or observation exercise (total, seven hours) a week.*

EDUCATION 4.

[2 YR. HRS.

*Commercial Teaching.* Lectures, discussions and application. This course includes (a) an examination of the content of courses in shorthand, typewriting, and office methods, including a comparison of the principal textbooks; (b) a detailed study of the methods employed in teaching these subjects; (c) observation and practice in teaching.

Professor ELDRIDGE, Assistant Professor ADAMS, Assistant Professor JACOBS, Assistant Professor SWEENEY, Mrs. DICKINSON.

*Two hours a week.*

EDUCATION 5.

[2 YR. HRS.

*Commercial Teaching.* Lectures, discussions and application. This course includes (a) a study of appropriate commercial curricula for junior and senior high schools, with emphasis on the discussion of vocational aspects of business training; (b) an examination of the content of courses in bookkeeping, penmanship, and arithmetic, including a comparison of the principal textbooks; (c) a detailed study of the methods employed in teaching these subjects; (d) observation and practice in teaching.

Professor TURNER, Assistant Professor WILKINSON, Assistant Professor ENGLER.

*Two hours a week.*

EDUCATION 6.

[1 YR. HR.

*Food Demonstration.* A course devoted to a consideration of the special problems involved in demonstrating and speaking to public audiences on food topics.

Professor DOW.

The number of students is limited to eighteen.

*Two hours a week during the second half.*

EDUCATION 8.

[1½ YR. HRS.

*Principles of Education and Methods of Teaching.* A study of fundamental processes in learning and teaching and special phases of teaching in the field of public health nursing.

Mr. ———.

*Two hours a week. January to June.*

## ETHICS 1.

[2 YR. HRS.]

Lectures, recitations, and reports. The course considers general ethical principles and reviews the development of ethical thought. The work, however, is of a decidedly practical character and includes discussion of modern moral questions. Each student is assigned a problem for individual solution in the course of the work of the year.

Assistant Professor MESICK.

An elective for students in the third and fourth years.

*Two hours a week.*

## PHILOSOPHY 1.

[2 YR. HRS.]

*Problems of Contemporary Philosophy.* A course of analytical discussions on readings in contemporary philosophical criticism and philosophical reconstruction necessitated by advances in biological, physical, and mathematical sciences. The development of modern humanism and its implications is fully considered.

Professor HARLEY.

*Two hours a week.*

## PSYCHOLOGY 1.

[2 YR. HRS.]

*Introduction to General Psychology.* Lectures and analytical discussions on the fundamental concepts and principles of the general field of human psychology with special emphasis on the sociological and humanistic implications of the facts considered. Collateral reading is required to supplement the text, lectures and discussions.

Professor HARLEY, Mr. HARRIS.

*Two hours a week.*

## PSYCHOLOGY 2.

[2 YR. HRS.]

*Introduction to Educational Psychology.* An introductory course in psychology, equal in scope to *Psychology 1*, designed especially for students who plan to elect courses in Education. Lectures and analytical discussions of the fundamental concepts and principles of human psychology with especial reference to educational problems and practices.

Mr. HARRIS.

Students who expect to elect *Education 1* should elect *Psychology 2* instead of *Psychology 1*.

*Two hours a week.*

## PSYCHOLOGY 3.

[2 YR. HRS.]

*Genetic Psychology. Psychology of Childhood and Adolescence.* Lectures, discussions, and classroom reports on the significant aspects

of mental development in childhood and adolescence with particular reference to the practical demands of the broader child care and welfare movement. The pedagogical and hygienic aspects of the subject are stressed. Extensive use is made of library resources, and direct observation of the behavior of individuals and groups is a requirement of the course.

Mr. HARRIS.

An elective for students who have completed *Psychology 1* or *2*. The number of students in a section is limited.

*Two hours a week.*

#### PSYCHOLOGY 4.

[1 $\frac{1}{3}$  YR. HRS.]

*Psychology for Nurses.* Lectures and analytical discussions on the fundamental concepts and principles of the general field of human psychology, with special emphasis on the sociological and psychotherapeutic implications of the facts considered. The psychological background of public health instruction is stressed.

Professor HARLEY.

*Two hours a week. January to June.*

#### PSYCHOLOGY 5.

[2 YR. HRS.]

*The Psychology of Personality.* An analytical study of the viewpoints and methods which have proved fruitful in the study of personality and its minor disturbances. The contributions of the various schools of psychological thought are studied, and considerable attention is paid to the quantitative studies of personality characteristics and factors by means of tests. The pedagogical and hygienic aspects of the subjects are stressed.

Professor HARLEY.

An elective for students who have completed *Psychology 1* or *2*. The number of students is limited to twenty-five.

*Two hours a week.*

#### PSYCHOLOGY 6.

[2 YR. HRS.]

*Educational Psychology. Educational Development in Childhood and Adolescence.* Lectures, discussions, and classroom reports on the contributions of psychological thought to general educational theory and practice, with special emphasis on the pedagogical organization essential to the complete mental development of the child. The processes of learning, the acquisition of skill, habit formation, emotional control, individual differences, special abilities and disabilities,

grouping on the basis of mental and educational tests, educational incentives and objectives are discussed in detail.

Mr. HARRIS.

An elective for students who have completed *Psychology* 1 or 2  
*Two hours a week.*

## PHYSICAL TRAINING

Two hours of physical exercise are required each week of all first-year students who are not excused by a physician. Dancing, basketball, fencing, track athletics, and regular gymnastic exercises are offered. Each student entering the course in physical training is required to present a health certificate showing that she has no defect in heart or lungs, and to pass a physical examination.

Associate Professor DIALL, Miss LEACH.

*Two exercises a week throughout the year.*

## PHYSICS AND MATHEMATICS

### PHYSICS 1.\*

[4 YR. HRS.]

*General Physics.* The object of the course is to familiarize the student with the fundamental concepts and principles of physics, especially those which are illustrated in everyday life and those which are important in various kinds of scientific work.

Professor HYATT, Associate Professor HEMENWAY, Assistant Professor STEARNS, Assistant Professor PEARSON, Assistant Professor JONES, Mrs. GAY.

*One lecture, two recitations, and one laboratory exercise (total, five hours) a week.*

### PHYSICS 2.

[4 YR. HRS.]

*General Physics.* A more detailed and analytical study of the fundamental principles of physics than in *Physics* 1.

Assistant Professor PEARSON.

Open without restriction only to students in the School of General Science who have completed *Physics* 1 and *Mathematics* 1, with grades not lower than C.

*Three class hours and one laboratory exercise (total, six hours) a week.*

\* *Special divisions are arranged for students in Household Economics and also in General Science.*

## PHYSICS 3.

[4 YR. HRS.]

*Advanced Course in Light and Electricity.* The work in light includes wave motion, refraction, interference, diffraction, spectrometry, polarization, and photometry. The work in electricity includes direct and alternating current theory and practice.

Professor HYATT.

Open only to students who have completed *Physics 2* with a grade not lower than C, and who either have taken or are taking *Mathematics 3*.

*Three class hours and one laboratory exercise (total, six hours) a week.*

## [PHYSICS 4.]

[4 YR. HRS.]

*Heat.* The principles of thermodynamics, with laboratory measurements in thermal expansion, conduction, radiation, and calorimetry.

*Hours to be assigned.*

Not given in 1933-34.]

## PHYSICS 5.

[2 YR. HRS.]

*X-Ray Technology.* The course aims to acquaint the students with a knowledge of the nature and practical applications of X-rays in the field of roentgenography. Lectures, demonstrations, laboratory work, and visits to X-ray laboratories.

Assistant Professor STEARNS.

Open to students who have completed *Physics 2*.

*One class hour and one laboratory exercise (total, four hours) a week.*

## PHYSICS 6.

[2 YR. HRS.]

*Introduction to Modern Physics.* Topics include electromagnetic theory, radiation, nature and properties of ions and electrons, nature and origin of spectra, radioactivity.

Professor HYATT.

Open to students who have completed *Physics 3* with a grade not lower than C.

*Two class hours a week.*

## PHYSICS 7.

[2 YR. HRS.]

*Advanced Laboratory Practice.* The work parallels to some extent that of *Physics 6*. Topics to be assigned include measurement of high temperatures, photography, spectroscopy, photo-electricity, vacuum tubes, and vacuum tube circuits.

Professor HYATT.

Open to students who have completed *Physics* 3 with a grade not lower than C.

*Three laboratory hours a week.*

MATHEMATICS 1.

[4 YR. HRS.

*Algebra, Plane Trigonometry, and Analytic Geometry.* Each subject is taken up separately. The treatment of logarithms is emphasized.

Associate Professor HEMENWAY.

A knowledge of elementary algebra and plane geometry is essential for admission to this course.

[MATHEMATICS 2.

[2 YR. HRS.

*Mathematics of Finance.* A mathematical treatment, supplemented by practical examples and assigned exercises, of such topics as simple and compound interest and discount, annuities certain, bond values, amortization of debts, sinking funds, depreciation, building and loan associations, life annuities, and life insurance.

Open to students who have completed *Mathematics* 1, or the equivalent.

*Two hours a week.*

Not given in 1933-34.]

MATHEMATICS 3.

[4 YR. HRS.

*Introduction to the Calculus.* The fundamental principles of both differential and integral calculus are studied, also the theory of computations. The differential calculus is applied to problems involving maxima, minima, and rates. The integral calculus is applied to problems involving reversal of rates, computation of areas, volumes, and lengths of curves.

Associate Professor HEMENWAY.

Open to students who have completed *Mathematics* 1, or the equivalent.

[MATHEMATICS 4.

[4 YR. HRS.

*Calculus and Elementary Differential Equations.* This course includes such topics as complex numbers, the evaluation of integrals, double and triple integration, partial derivatives, and elementary differential equations. Applications from the sciences are studied, in addition to those of geometry.

Open to students who have taken *Mathematics* 3, or the equivalent, with a grade not lower than C.

Not given in 1933-34.]

## PUBLIC HEALTH NURSING

## NURSING EDUCATION 2.

[1½ YR. HRS.]

A course designed for head nurses which includes a discussion of standard nursing procedures and methods for comparing and reconstructing typical procedures.

Miss ———.

*Hours to be arranged (total, two hours). January to June.*

## NURSING EDUCATION 3.

[1 YR. HR.]

This course is arranged for head nurses and supervisors who are concerned directly with the practical management of ward services. The emphasis is on the physical plant and its equipment and on economic and housekeeping problems.

Miss WOOD.

*Two hours a week during the first half.*

## NURSING EDUCATION 4.

[1 YR. HR.]

A course for head nurses in the organization and management of the ward personnel and nursing service, including the development of a ward teaching programme.

Miss WOOD.

*Two hours a week during the second half.*

## PUBLIC HEALTH NURSING 1.

[1½ YR. HRS.]

This course deals with the development, methods, and technique of public health nursing, with emphasis upon its social and preventive aspects. A number of visits are made to health and social agencies.

Professor RICE, Miss HITCHCOCK, and special lecturers.

Open to students who are taking or have completed the required field work, and to others with the consent of the instructor.

*Repeated.*

## PUBLIC HEALTH NURSING 2.

[1½ YR. HRS.]

The first half of this course deals with social hygiene. The second half offers to students the opportunity to become familiar with the community aspects of mental hygiene and the practical application of mental hygiene to family health work.

Dr. YOUNG, Dr. ELKIND, Miss DONOHUE, and special lecturers.

Lectures, seminars and excursions.

*January to June.*

## PUBLIC HEALTH NURSING 3.

[2 YR. HRS.]

The organization and administration of public health nursing services are studied in this course. Special attention is paid to public health nursing in relation to other forms of health work.

Professor RICE.

Open to students who have completed *Public Health Nursing 1* and to others with the consent of the instructor.

*January to June.*

## PUBLIC HEALTH NURSING 4.

[2 YR. HRS.]

This course deals with the work of federal, state and municipal health services and the application of medical knowledge to the control of preventable disease. Considerable time is devoted to the various aspects of the school health programme, with particular reference to the work of the school nurse. Health education is stressed.

Dr. DIEZ, Miss HITCHCOCK, and special lecturers.

*Three hours a week. January to June.*

## PUBLIC HEALTH NURSING 5.

[1½ YR. HR.]

A course designed for head nurses and supervisors in which a discussion of the preventive aspects of nursing develops means for incorporating them in the clinical experiences of students in hospitals, out-patient departments, and community nursing services.

Professor RICE, Miss HITCHCOCK, Dr. DIEZ, and special lecturers.

*Two hours a week. January to June.*

## PUBLIC HEALTH NURSING FIELD WORK.

[2 YR. HRS.]

Thirty-five to forty hours weekly of supervised practice in family health work, divided into three periods in which two months are spent in a generalized public health nursing programme, one month in child welfare and tuberculosis work, and one month in family case work.

## SECRETARIAL STUDIES

## ACCOUNTS 1.

[4 YR. HRS.]

*Fundamentals of Accounting.* The course begins with a study of the principles of double entry bookkeeping and practices the application of those principles in writing up the books of a small shop and of a merchandising business owned by a single proprietor. Then follow features of particular value to secretaries, e.g.: methods of accounting required for various forms of investment—stocks, bonds, real estate—both as to capital and as to revenue; extended practice in

computation of the Federal Income Tax as applied to individuals; the accounts of professional men; study and practice in approved forms of the financial reports of schools, societies, and charitable organizations.

One exercise each week is devoted to the mathematics of accounting, especially interest and discount, simple and compound; valuation of bonds; the use of logarithms; foreign exchange; annuities; sinking funds.

Professor TURNER, Assistant Professor ENGLER, Miss SONDERGARD.

#### ACCOUNTS 2.

[2 YR. HRS.]

*Accounting Principles.* Studies in some advanced phases of accounting. Reading, discussion, and problems in such matters as corporation accounts; the evaluation of balance sheet accounts; capital and income; surplus; depreciation and reserves; the interpretation of statements (based on actual cases); realization and liquidation; cost accounts; consolidated statements.

Professor TURNER.

*Two hours a week.*

#### ACCOUNTS 3.

[2 YR. HRS.]

*Accounting Principles.* Practical questions and problems. Some of the subjects considered are: statements made from single entry books; partnership problems; causes of change in the rate of profit; consignments and joint ventures; manufacturing statements; source and application of new funds; accounts of executors or administrators; miscellaneous problems in such things as adjustments for fire loss and insurance, and for suspense items.

Professor TURNER, Assistant Professor ENGLER.

*Two hours a week.*

#### ACCOUNTS 4.

[2 YR. HRS.]

The course is intended to give (a) facility in the technique of bookkeeping and (b) ability to teach bookkeeping classes in secondary schools. The basis of the course is laboratory work in keeping books of a commercial character; progressing from single entry to double entry, and from the accounts of single proprietorship, through the more detailed records of a partnership, to those of a manufacturing corporation using a voucher system.

Professor TURNER.

Open to students who have completed *Accounts 1*.

*Two exercises (total, four hours) a week.*

## ACCOUNTS 5.

[2 YR. HRS.]

*Institutional Accounts.* Lectures and exercises. A course in the elements of bookkeeping and of business practice as applied to the accounts of lunch rooms, tea rooms, college dormitories and institutions of a similar type. Practice is given in the making of statements, the analysis of figures, and the designing of books of record appropriate for these types of institutions.

Assistant Professor ENGLER.

*Two hours a week.*

## ACCOUNTS A.

A course similar in scope to *Accounts 5* but with less practice work. It is planned for the students in *Institutional Management*.

Assistant Professor ENGLER.

*Two hours a week during the first and second thirds.*

## ADVERTISING 1.

[2 YR. HRS.]

Lectures, discussions, and practice. The course presents the principles which underlie the various types of advertising. The topics studied include the functions of advertising, an analysis of products, a study of the channels of trade, the psychology of advertising, layout, the preparation of copy; the use of illustrations, headlines, and display type. Specific problems and illustrations are given throughout the course. Each student makes a loose-leaf notebook of the daily examples and constructively criticized reports.

Professor ELDRIDGE.

*Two hours a week.*

## BUSINESS ORGANIZATION 1.

[2 YR. HRS.]

A general outline of the principles underlying the organization and management of business, including the discussion, from the standpoint of business, of such subjects as the following: the relation of business to the sciences, scientific methods, forms of business enterprise, the financing of corporations, scientific management, types of management, wage systems, functions of credit, problems of exchange, purchasing, selling, advertising.

During the latter part of the course, office organization from the point of view of the large and small office is emphasized. The subjects considered in this part of the course include: the relation of the office to business organization; the administration of services such as mailing, filing, transcribing, duplicating; the problem of office

personnel—job analysis, selection, training, compensation, and follow-up of employees.

Professor ELDRIDGE, Assistant Professor SWEENEY.

*Two hours a week.*

#### BUSINESS PROBLEMS 1.

[2 YR. HRS.

An intensive study of problems arising in business, particularly those of finance, selling, purchasing, advertising, or office practice. A number of actual illustrative cases are carefully examined and an attempt is made to reach the best solution in each case. Each student is expected to make a special study and report on at least one topic. The course should be of value in enabling the student to make definite application of the principles studied in *Business Organization 1*.

Professor ELDRIDGE.

*Two hours a week.*

#### COMMERCE 1.

[2 YR. HRS.

A consideration of the elements of industry, commerce, and human geography, and of the dependence of products and trade upon climate and location. The resources and trade productions of foreign countries are studied with particular reference to their effect upon the commerce of the United States. Special research on assigned topics.

Professor TURNER.

*Two hours a week.*

#### COMMERCIAL LAW 1.

[1 YR. HR.

Discussions based on the study of legal principles and daily practice in the application of these principles to selected cases. The primary aims of the course are to help the student acquire a knowledge of those fundamental legal principles which have high personal-use values, as well as of those principles which apply to ordinary business situations; to insure an understanding of the essential ideas of social justice on which all law is based; and to develop a respect for, and an active interest in, the orderly processes of law as a means of promoting social welfare. Contracts, sales, negotiable paper, common carriers, agency, insurance, property, partnership, and corporations are among the subjects considered.

Miss O'BRIEN.

*Two hours a week during the first half. The course is repeated in the second half.*

## OFFICE ORGANIZATION 1.

[1 YR. HR.]

A laboratory course devoted to practice work on the most commonly used office machines. Sufficient practice is given on each machine to insure an understanding of its use in office work and its intelligent operation.

Assistant Professor SWEENEY.

*Four practice periods a week during the first half. The course is repeated in the second half.*

## PENMANSHIP A.

A course in the principles of business penmanship designed to develop a handwriting legible, rapid, and easy of execution. Some time is spent in practice on business figures. During the latter part of the course drill is given on standard alphabets for use in plain or ornamental lettering.

Assistant Professor JACOBS, Assistant Professor BERGER, Miss SONDERGARD.

*One hour a week.*

## SECRETARIAL TRAINING 3.

[4 YR. HRS.]

This comprehensive course is planned to prepare the student for actual secretarial work. It is designed (a) to give practice in the varied duties required of a secretary in a number of different types of business, in the different departments of a business, and in professional positions, with special attention to detail, form, style, manuscript writing, intricate tabulations, and office methods; (b) to increase speed and accuracy in shorthand and typewriting; (c) to develop a broad general vocabulary and to give some knowledge of technical terms.

Assistant Professor ADAMS, Assistant Professor WILKINSON, Assistant Professor FERGUSON, Assistant Professor JACOBS, Mrs. DICKINSON.

*Open to students who have completed Shorthand-Typewriting 2. Five exercises (total, ten hours) a week.*

## SECRETARIAL TRAINING 4.

[2 YR. HRS.]

This course is planned for students who desire to emphasize accounts rather than shorthand during the final year.

It is designed to give the student practice in the varied duties required of a secretary in a number of different types of business, in the different departments of a business, and in professional positions, with special attention to detail, form, style, manuscript writing, intricate tabulations, and office methods. A good workable speed

and accuracy in shorthand and typewriting is maintained throughout the course.

Assistant Professor FERGUSON, Mrs. COULTER.

*Two exercises (total, four hours) a week.*

#### SHORTHAND-TYPEWRITING 1.

[4 YR. HRS.]

*Shorthand (Gregg or Pitman).* Elementary sounds and their shorthand representatives; the devices used to express phonetic combinations; word building; word signs and other contractions; phrasing; dictation. A thorough knowledge of the fundamental principles of shorthand may be gained in this course, and a speed of from fifty to sixty words a minute is acquired.

Assistant Professor ADAMS, Assistant Professor BERGER, Mrs. COULTER, Miss NORTHRIDGE, Miss DORSEY.

*Typewriting.* Instruction in the use and care of the typewriter; exercises for the development of proper technic in the operation of all mechanical parts of the machine and for the complete mastery of the keyboard through the sense of touch; letter writing; copy from straight matter; tabulation; transcribing from shorthand notes.

Assistant Professor JACOBS, Miss CONWELL, Miss NORTHRIDGE, Miss FORD, Miss DORSEY.

*Five exercises (total, ten hours) a week.*

#### SHORTHAND-TYPEWRITING 2.

[4 YR. HRS.]

*Shorthand (Gregg or Pitman).* Systematic practice and drill in writing shorthand, with special emphasis on advanced phrasing principles. For the purpose of acquiring a broad general shorthand vocabulary, a wide variety of dictation is given: letters, speeches, and editorials. A speed of from ninety to one hundred words a minute on general matter is attained.

Assistant Professor WILKINSON, Assistant Professor FERGUSON, Assistant Professor BERGER, Miss SONDERGARD.

*Typewriting.* Practice in the transcription of shorthand and in copying typewritten exercises, printed matter, and rough drafts, for the attainment of accuracy. Special attention is given to spelling, business forms, and letter arrangement. During the year instruction is given in tabulation, alphabetizing, billing, and the preparation of checks, telegrams, form letters, and stencils.

Assistant Professor WILKINSON, Assistant Professor FERGUSON, Assistant Professor BERGER, Miss SONDERGARD.

Open to students who have completed *Shorthand-Typewriting 1*.

*Five exercises (total, ten hours) a week.*

## SHORTHAND-TYPEWRITING 5.

[8 YR. HRS.]

*Shorthand (Gregg or Pitman).* A special course designed to give in one year a thorough knowledge of the principles of shorthand and an ability to take dictation at a speed sufficient for most secretarial positions. The work of the course, which is divided into three parts, includes (a) a study of fundamental principles, drills in shorthand penmanship, word building, word signs and other contractions, simple phrasing, dictation; (b) additional systematic practice in writing shorthand, with special emphasis on phrasing principles, a wide variety of dictation including letters, speeches, and editorials; (c) dictation covering a broad business vocabulary such as would be used in offices of various types, with emphasis placed on speed. At the end of the year the student should be able to write one hundred words a minute in shorthand and be able to read her notes with facility.

Assistant Professor ADAMS, Mrs. DICKINSON, Miss FORD.

*Typewriting.* A special course designed to give in one year a thorough knowledge of the fundamental principles of typewriting and to enable the student to operate a typewriter accurately at a good speed. The work of the course, which is divided into three parts, includes (a) instruction in the use and care of the typewriter, rhythm drills, drills for accuracy, practice in letter writing, use of carbon paper, centering, writing on cards, simple tabulation; (b) practice in transcribing, making copies from rough draft, writing different kinds of documents, using various forms for letters; (c) practice in form, style, manuscript writing, difficult tabulations, and office methods. Special emphasis is placed upon the development of speed in typewriting and transcribing.

Mrs. COULTER, Miss CONWELL.

*Ten exercises (total, twenty hours) a week.*

## SHORTHAND-TYPEWRITING 7.

[2 YR. HRS.]

*Shorthand for Personal Use.* This course is planned for those who wish to learn a brief system of writing for general, personal use, such as for making lecture notes, writing abstracts or memoranda, personal correspondence, and various kinds of composition. At the end of the course, the average student should know the system thoroughly and should be able to write legible shorthand notes, which need not be transcribed, at a speed at least double that of longhand.

Professor ELDRIDGE.

*Typewriting.* A brief, intensive course planned to give, in the shortest possible time, a mastery of the keyboard by the sense of touch. The course includes practice in letter writing, card writing, simple

tabulation, centering. Training in speed and accuracy is secured through copy tests and speed drill.

Miss FORD.

*Shorthand: Three hours a week.*

*Typewriting: Two hours a week.*

An elective for students in the School of Social Work and for such other students as secure permission from the Director of the School in which they are enrolled.

#### SHORTHAND-TYPEWRITING 8.

[2 YR. HRS.

*Medical.* This course is planned for those who desire to secure positions as secretaries with doctors or as record secretaries in hospitals. In the shorthand period an effort is made to secure facility in the writing of a broad scientific vocabulary, particularly those terms likely to be used by physicians. In the typewriting part of the course the student is taught the proper form to be used in writing case histories, including record cards for the files.

Students who elect this course are given special problems in medical filing in the course in *Office Organization 1*.

Assistant Professor WILKINSON, Miss NORTHRIDGE.

Open to students who have a grade not lower than C in *Shorthand-Typewriting 2*.

*Shorthand: Two hours a week.*

*Typewriting: Two hours a week.*

#### SHORTHAND-TYPEWRITING 9.

[2 YR. HRS.

*Legal and Reporting.* This course is planned for those who desire to secure positions in lawyers' offices or to become shorthand reporters. In the shorthand period legal procedure is taught, legal vocabulary is developed, and an effort is made to secure high speed in writing depositions, testimony, and charges to jury. In the typewriting part of the course legal forms and papers are studied and written.

Professor ELDRIDGE, Miss NORTHRIDGE.

Open to students who have a grade not lower than C in *Shorthand-Typewriting 2*.

*Shorthand: Two hours a week.*

*Typewriting: Two hours a week.*

#### TYPEWRITING 6.

[1 YR. HR.

A brief, intensive course planned to meet the special needs of library students. Mastery of the keyboard by the sense of touch is followed by practice in writing cards and letters, using carbon, tabulating

book orders and book lists, arranging tables of contents, centering title pages, and making ornamental book covers.

Assistant Professor JACOBS, Mrs. DICKINSON, Miss SONDERGARD.

*Two hours a week.*

### SOCIAL AND POLITICAL SCIENCE \*

SOCIAL ECONOMY 1. [4 YR. HRS.]

A study of social maladjustments involved in poverty, unemployment, disease, defect, and delinquency. Also a review of the development of social work in its relation to changing economic, political, and social conditions.

Professor HARDWICK, Miss WILLS.

*Three class hours and field work (total, six hours) a week.*

SOCIAL ECONOMY 2. [1 YR. HR.]

Lectures, followed by round-table discussions of the principles and methods of case work. Special emphasis is laid upon the resources of the small town and rural community, and on the mental hygiene approach to personal problems.

Miss PARSONS.

*Two hours a week during the second half.*

SOCIOLOGY 1. [2 YR. HRS.]

An introductory course in social theory and descriptive sociology. Discussions of the problems of social relations—domestic, political, religious and industrial.

Associate Professor STEIGER.

*Two hours a week.*

SOCIOLOGY 2. [1½ YR. HRS.]

The origin and present importance of such social institutions as the family, the state, the church, and the industrial system, with special emphasis on those which are now subject to attack or modification.

Associate Professor STEIGER.

*Two hours a week January to June.*

### STORE SERVICE EDUCATION

Courses given at 19 Allston Street are outlined in the special Bulletin of the Prince School of Store Service Education.

\* Courses given at 18 Somerset Street are described in the special Bulletin of the School of Social Work.

# SIMMONS COLLEGE BULLETIN

*Summer Session*

1933

*It must be understood that the College reserves the right to make changes, if necessary, either in the courses announced or in the schedule of hours. If there is not a sufficient number of applicants for a course by June 19, the course may be withdrawn.*

MARCH, 1933

VOL. XXVI, No. 5, PART I

---

*Issued six times a year by Simmons College in the months of July, September, November, January, March, and May, at 10 Ferry Street, Concord, N. H.*

*Editorial Offices: Simmons College, 300 The Fenway, Boston, Mass.*

*Application pending for transfer of second-class entry from the  
post office at Boston, Mass., to the post office at  
Concord, N. H.*

## GENERAL INFORMATION

**T**HE SUMMER SESSION of 1933 of Simmons College opens on Wednesday, July 5, and closes on Tuesday, August 15. No required exercises are held on Saturdays, except on the first Saturday, July 8, when all Monday classes meet.

### OFFICERS OF ADMINISTRATION

HENRY LEFAVOUR, Ph.D., LL.D.	<i>President</i>
DORA BLANCHE SHERBURNE, S.B.	<i>Registrar</i>
MARJORIE BURBANK, A.B.	<i>Recorder</i>
RICHMOND KNOWLTON BACHELDER, B.B.A.	<i>Bursar</i>

### OFFICERS OF INSTRUCTION

The officers of instruction include members of the regular instructing staff of Simmons College and also special instructors and lecturers whose services can be secured for the College only during the summer.

### ADMISSION REQUIREMENTS

The greater number of the courses are open to men and women who have had the equivalent of at least a high school education. While there are no formal entrance examinations, the instructor in charge of a given course may require of those who wish to enter his course any preliminary test, formal or informal, which he may consider necessary. The instructor may also require the withdrawal from the course of any students whose preparation for the work he concludes is inadequate. Any specific prerequisites are stated in the descriptions of the courses.

Admission to courses in the School of Public Health Nursing is restricted to registered nurses who meet the professional requirements stated on page 17.

#### APPLICATION FOR ADMISSION

Application for admission (except to the School of Public Health Nursing) should be made upon the blank form on page 19 of this bulletin, and the form should be sent to the Registrar of Simmons College, Boston, Massachusetts. Since the enrollment in some of the courses offered is limited, it is distinctly advisable to file applications as early as possible. If there is not a sufficient number of applicants for a course by June 19 the course may be withdrawn.

Application for admission to the School of Public Health Nursing should be made on a special form which may be obtained from the Director, School of Public Health Nursing, Simmons College, Boston. Each applicant is notified by the Director as to whether or not she is accepted.

#### REGISTRATION

Registration for the summer courses is held from 9.00 A.M. to 12.00 noon and from 1.00 to 3.00 P.M. on Wednesday, July 5, and during these hours instructors may be consulted in their offices. *The schedule of classes goes into effect Thursday morning, July 6.*

#### FEES

*The maximum tuition fee for a programme including as many courses as the schedule permits is \$45; except in the School of Library Science where the maximum is \$50. The fees for each course are stated in the description of the course. Laboratory fees are in addition to the tuition fee.*

*All charges, including tuition, laboratory, and residence fees, are payable at the time of registration and before classes are attended. No reduction in the tuition fee is made for late entrance.*

Students paying the maximum tuition fee have the privilege of visiting, as auditors, classes for which they have not actually registered (except in the School of Library Science), provided permission is obtained from the instructor in charge.

## WITHDRAWALS

*No refund is made for withdrawal (from a course or from the summer session) occurring after the first week of the summer session. The first week ends on Saturday, July 8.*

## DORMITORIES

South Hall, a College dormitory at 321 Brookline Avenue, is open to women students. It is best reached by the cars passing through Ipswich Street and Brookline Avenue. These cars leave Massachusetts Station, which is reached from the North Station by Boylston Street subway cars, from the South Station by the subway to Park Street, and from the Back Bay and Huntington Avenue Stations by busses passing through Boylston Street. Students should leave the cars at Short Street.

Except for a few suites of two rooms each, there are only single rooms. Bed linen, towels, one pair of blankets, cot bed, bureau, chairs, and study table are supplied by the College. Students are expected to take care of their own rooms.

Rooms are assigned in the order of the receipt of the required deposit of \$5. The deposit is credited upon the student's bill for residence, but is *forfeited* if the application for a room is withdrawn. Checks or money orders should be made payable to Simmons College.

The charge for a single room and board, not including luncheons on the days when classes are in session, is \$60 for the summer session (from the afternoon of July 3 to the morning of August 16). For any period less than the full session the charge is \$11 for each full week. For portions of a week the charge is \$2 a day, but there is no refund for week-ends spent elsewhere. The charge is the same for each person in a suite. Each student is required to pay on registration the total charge for her residence.

As a laundry is provided for the use of dormitory stu-

dents, a fee of \$1, payable at the House Superintendent's office, is charged for this privilege.

#### COLLEGE BUILDINGS

The main College building, in which are held *all* registration and all classes, is situated at the southern end of the Fenway, and may be reached by all Ipswich Street and Brookline Avenue cars, which leave Massachusetts station, and by all Huntington Avenue cars except those marked Dudley Street. The Huntington Avenue cars should be left at Louis Prang Street, the Brookline Avenue cars at Pilgrim Road.

#### EXAMINATIONS AND RECORDS

Examinations are held at the close of the several courses. No provision is made for special examinations or reëxaminations in summer courses. All records, which are based on the daily work and the examinations, are sent by mail not later than October to the permanent addresses given by the students at the time of registration.

#### CREDIT

The record indicates the value in points of courses which are accepted toward the degrees of Bachelor of Science and Associate in Science at Simmons College, and states that this credit in points is granted only to properly qualified students.

*Undergraduates at Simmons College* who wish to take summer courses to count toward the degree of Bachelor of Science must consult the directors of their schools *in advance* and receive permission from the Committee on Admission and Programmes.

The maximum amount of credit which may be granted to a student for the work of one summer is six points. Two points are equivalent to one year hour in the regular session (or two semester hours).

## SCHOOL OF SECRETARIAL STUDIES

### NORMAL COURSES IN COMMERCIAL SUBJECTS

THE summer courses are designed for men and women who need a broader and more practical knowledge of the various commercial subjects or who desire instruction in the methods of teaching these subjects. While students who have completed a high school course or its equivalent are eligible for admission to the summer session, the courses are planned especially for teachers and for persons who are preparing to teach.

The courses are of three types:

1. *Subject Matter*. (Designated by the letter S in the title.) This type of course is intended primarily to present subject matter. No definite attempt is made to discuss methods of teaching, although reference may be made to such methods.

2. *Subject Matter and Methods*. (Designated by the letters S M in the title.) This type of course has a double aim: (a) to present in the briefest possible way the subject matter; (b) to outline the content of such a course and to discuss the best methods for presenting that subject to high school classes.

3. *Methods*. (Designated by the letter M in the title.) These courses are planned to present and discuss methods of organization and teaching. They are of two kinds: (a) courses which deal with the general problems of commercial education from the standpoint of the teacher, such as Commercial Education M, Psychology M, and Tests and Measurements M; (b) courses which aim to present and discuss the best methods of teaching a specific commercial subject, such as Accounts M, Office Methods M, Shorthand M, and Typewriting M.

## COMMERCIAL SUBJECTS

EDWARD HENRY ELDRIDGE, PH.D., *Professor of Secretarial Studies and Director of the School of Secretarial Studies*

HELEN GOLLER ADAMS, A.B., S.B., *Assistant Professor of Secretarial Studies*

JENNIE BLAKENEY WILKINSON, S.B., M.ED., *Assistant Professor of Secretarial Studies*

FLORA MCKENZIE JACOBS, *Assistant Professor of Secretarial Studies*

VIOLA GRACE ENGLER, S.B., M.B.A., *Assistant Professor of Secretarial Studies*

CLARE LOUISE SWEENEY, A.B., S.B., M.ED., *Assistant Professor of Secretarial Studies*

ISABELLA KELLOCK COULTER, A.B., S.B., *Instructor in Secretarial Studies*

HELENA VERONICA O'BRIEN, S.B., LL.B., *Member of the Massachusetts Bar, Special Instructor in Commercial Law*

The fee for each course is stated in the description of the course, *but the maximum tuition fee for a programme including as many courses as the schedule permits is \$45.*

## ACCOUNTS S 1.

*Elementary Bookkeeping.* A course in bookkeeping designed for those who have no previous knowledge of the subject. The assignments illustrate the use of all ordinary books of original entry and the ledger. Instruction and practice are given in the preparation of mercantile profit and loss statements and balance sheets, in closing the ledger, and in banking practice.

ASSISTANT PROFESSOR SWEENEY.

[2 points

10.30 to 11.30 daily.

Fee, \$20.

## ACCOUNTS S 2.

*Advanced Bookkeeping.* This course is designed for those who have a knowledge of the elementary principles of double-entry bookkeeping and who wish to teach bookkeeping.

The following topics are covered: partnership accounts, interest and discount, columnar cash book, special ledgers, controlling ac-

counts, depreciation and reserves, imprest fund, good will, accounting for investments and the proper forms of financial reports of clubs and institutions, etc. The application of these features is thoroughly worked out in comprehensive practice sets, including an outline of the principles of bookkeeping from a single proprietorship, through partnership, the elements of corporation accounting and statements for manufacturing concerns—subjects which often appear on examinations for teaching positions.

Assistant Professor ENGLER.

[3 points

*9.30 to 10.30 and 11.30 to 12.30 daily.*

Fee, two periods, \$25; one period, \$20.

### ACCOUNTS M.

*Principles of Teaching Bookkeeping.* By means of lectures, class discussions and demonstration this course considers topics such as methods of approach, principles usually difficult for the pupil, classroom procedure, examining and grading work, the preparation of additional material, and the sequence of bookkeeping principles.

Assistant Professor ENGLER.

[2 points

*1.00 to 2.00 daily.*

Fee, \$20.

### ADVERTISING S M.

This course presents the principles which underlie the various types of advertising, and the organization and administration of classes in advertising. Specific problems and illustrations are given throughout the course. Each student makes a loose-leaf notebook of the daily examples and constructively criticized reports which should be of help, especially in the teaching of the subject.

Professor ELDRIDGE.

[2 points

*1.00 to 2.00 daily.*

Fee, \$20.

### BUSINESS ORGANIZATION AND MANAGEMENT S M.

This course includes a general study of the principles which underlie business. Among the topics considered are forms of business enterprise, finance, management, office management, wage systems, labor problems, purchasing, selling, advertising, banking, and financial statements.

Professor ELDRIDGE.

[2 points

*10.30 to 11.30 daily.*

Fee, \$20.

### COMMERCIAL EDUCATION M.

A brief survey of the reorganization of secondary education serves as background for the study of the development and place of commercial education. The course also deals with the many problems which must be solved in the construction and administration of a sound commercial programme.

Assistant Professor WILKINSON.

[2 points

*2.00 to 3.00 daily.*

Fee, \$20.

### COMMERCIAL GEOGRAPHY S M.

Industrial geography is studied by commodities, by regions and by economic factors—such as climate, topography, transportation, communication. This plan gives preparation for teaching as well as adequate knowledge of the subject.

Assistant Professor ENGLER.

[2 points

*2.00 to 3.00 daily.*

Fee, \$20.

### COMMERCIAL LAW S M.

This course gives instruction in the fundamental principles of the law of contracts, agency, negotiable instruments, bailments, sales of personal property, partnerships, corporations, insurance, and guaranty. It also outlines a course in the teaching of commercial law for the use of teachers and persons who are preparing to teach.

Miss O'BRIEN.

[2 points

*8.30 to 9.30 daily.*

Fee, \$20.

### OFFICE MACHINE PRACTICE S.

A course designed to give a working knowledge of the common types of office machines. The following machines are available for actual practice: Calculators—Burroughs, Comptometer, Dalton, Monroe, Marchant; Bookkeeping Machines—Burroughs Electric, Remington, Underwood Electric; Duplicating Machines—Ditto, Mimeograph, Multigraph; Filing Systems; Underwood Fanfold Biller; Ediphone Dictating and Transcribing Machines; and the Teletype. Other representative office appliances and machines are demonstrated during the summer in accordance with the needs of the students. At least one hour daily of outside work is required if credit is desired.

Assistant Professor SWEENEY.

[2 points

*9.30 to 10.30 daily.*

Fee, \$20.

**OFFICE METHODS M.**

A course designed to study the methods of teaching office machines and clerical practice to high school students. Content of the course: the discussion of common class room problems, material available for instruction, reference and textbooks, various types of office machines, and methods of organizing units of work.

NOTE: Students who register for this course should either take Office Machine Practice S in conjunction with it or should have a good knowledge of the operation of office machines.

Assistant Professor SWEENEY.

[2 points

11.30 to 12.30 daily.

Fee, \$20.

**PSYCHOLOGY FOR TEACHERS M.**

The course has three aims: (1) an explanation in non-technical language of the topics of psychology which underlie successful teaching; (2) an attempt to assist members of the class in using the principles of psychology in the solution of personal problems; (3) a discussion of the methods to employ in the teaching, guidance, and control of students.

Professor ELDRIDGE.

[2 points

9.30 to 10.30 daily.

Fee, \$20.

**SHORTHAND S 1.**

*Elementary Shorthand* (Gregg). This course covers the principles, word signs, and phrases of the system. It gives the teacher sufficient knowledge to teach beginning shorthand and serves others as a good foundation for dictation with added review and practice. The course requires at least one hour daily of outside work.

Assistant Professor ADAMS.

[3 points

9.30 to 10.30 and 11.30 to 12.30 daily.

Fee, \$25.

**SHORTHAND-TYPEWRITING S 13.**

*Intermediate Shorthand and Typewriting* (Gregg and Isaac Pitman). The periods devoted to shorthand include a rapid review of the principles together with intensive practice on word signs and phrases. Special penmanship drills are given. The dictation is of two kinds: (a) special matter to assist in review of principles, (b) general dictation designed to develop a good working vocabulary. The periods devoted to typewriting include a review of the

keyboard through rhythm drills and speed tests, a review of letter forms, and transcribing from shorthand notes.

Shorthand: Assistant Professor WILKINSON. [3 points]

Typewriting: Assistant Professor JACOBS, Mrs. COULTER.

*Shorthand: 9.30 to 10.30 and 11.30 to 12.30 daily.*

*Typewriting: 8.30 to 9.30 and 10.30 to 11.30 daily.*

Fee, four periods, \$30; two periods, \$25.

### SHORTHAND-TYPEWRITING S 23.

The content of the course is practically the same as that of the third term of the second year of the regular Simmons College course in shorthand and typewriting. It includes drills in shorthand and typewriting and systematic practice in transcribing articles and letters. It is open to persons who have acquired a speed of approximately eighty words a minute in shorthand and who can transcribe their notes with reasonable facility. Persons who do not desire credit for the course may register for two periods daily, provided their preparation is adequate.

Shorthand: Assistant Professor WILKINSON. [3 points]

Typewriting: Assistant Professor JACOBS, Mrs. COULTER.

*Shorthand: 8.30 to 9.30 and 10.30 to 11.30 daily.*

*Typewriting: 9.30 to 10.30 and 11.30 to 12.30 daily.*

Fee, four periods, \$30; two periods, \$25.

### SHORTHAND M.

*Methods of Teaching Shorthand* (Gregg). This course, which is planned primarily for teachers of Gregg shorthand, emphasizes the practical mechanics of the class period. Among topics carefully considered are the place of penmanship in the shorthand lesson, word building, blackboard illustration, teaching of word signs and phrases, the value of shorthand reading, development of shorthand vocabulary and of word carrying capacity, the best methods of testing shorthand students at different points in their progress, the correlation of shorthand and typewriting instruction, sources and selection of dictation material, grading, keeping records, and supplementary textbooks. One hour daily of outside preparation is necessary in addition to the class room period.

Assistant Professor ADAMS.

[2 points]

*1:00 to 2:00 daily.*

Fee, \$20.

### TESTS AND MEASUREMENTS M.

In this course the principles of tests and measurements are studied. The uses of tests of various kinds (intelligence, prognostic, di-

agnostic and achievement), particularly as applied to shorthand and typewriting, are discussed. Among the topics studied are: (1) necessity for standard tests; (2) characteristics of such tests; (3) how best to express results; (4) the mathematics of tests; (5) classification of tests; (6) types and uses of tests; (7) difficulties in the use of tests; (8) study of various tests now available; (9) how useful tests may be constructed.

Professor ELDRIDGE.

[2 points

8.30 to 9.30 daily.

Fee, \$20.

### TYPEWRITING S 1.

*Elementary Typewriting.* This course, which is designed to cover the fundamentals of touch typewriting and to give a mastery of the keyboard, includes keyboard exercises, copy from miscellaneous matter, centering, simple tabulation, letter forms, addressing envelopes, and use of carbon.

Assistant Professor JACOBS.

[2 points

8.30 to 9.30 and 10.30 to 11.30 daily.

Attendance required both periods, if credit is desired.

Fee, two periods, \$25; one period, \$20.

### TYPEWRITING M.

*Typewriting Methods and Practice.* This course affords opportunity for free class discussion of methods and interchange of ideas among experienced teachers of typewriting. It combines practice and theory in the actual class performance of problems in typewriting known to present difficulties in teaching. Problems of teaching beginners and advanced students are discussed and a variety of methods presented. Assignments will be given for reports on recent typewriting texts and reference books and these reports will be discussed in class. This course is open only to persons who have a good working knowledge of the typewriter and are able to write by touch at a moderate rate of speed on a standard machine.

Assistant Professor JACOBS.

[1 point

1.00 to 2.00 daily.

Fee, \$20.

## SCHOOL OF LIBRARY SCIENCE

**M**EN and women, between twenty and forty-five years old, who are high school graduates, are eligible for admission. For graduates of academic colleges the summer courses give credit toward the degree of Associate in Science. The degree is granted on the completion, with satisfactory grades, of thirty-two points, including at least six points in each of the following subjects: Book Selection, Cataloguing, and Reference; and at least three points in each of the following: Classification, and Library Administration. The other eight points may be chosen from other library science courses offered in various summers, such as Library Work with Children, School Libraries, Bibliography, History of Libraries. Six points is the maximum that can be carried in one summer.

Cataloguing S 1 continues for six weeks, Reference S 1 is completed in four weeks. Since much of the work required in preparation is of such a nature that it cannot be done elsewhere, persons taking Cataloguing S 1 should allow at least fourteen hours a week at the College for it, and those taking Reference S 1 should allow ample time for use of the library in connection with the problems assigned.

### SCHOOL LIBRARIANS

School librarians need the fundamental library science courses, such as cataloguing and reference, as well as courses dealing with the special adaptation of library service to school problems. They will find either of the library science courses offered valuable to them.

## COURSES IN LIBRARY SCIENCE

JUNE RICHARDSON DONNELLY, S.B., B.L.S., *Professor of Library Science, and Director of the School of Library Science*

MARY ELVIRA KAUFFMANN, A.B., S.B., *Instructor in Library Science*

MARGARET ELIZABETH DAVIS, A.B., S.B., *Instructor in Library Science*

BERTHA VINCENT HARTZELL, A.B., S.B., *Supervisor of Training, Boston Public Library*

The fee for each course is stated in the description of the course, *but the maximum total fee for any combination of courses is \$50.*

## CATALOGUING S 1.

Lectures, discussion, and reading on the principles, methods, and technique which underlie the successful functioning of the dictionary catalogue, with rules for their application in practice, and brief instruction on the housing, arrangement, and equipping of the catalogue; accompanied by the cataloguing of a set of books which illustrate the points covered by the course.

This course does *not* include instruction on how to classify books or arrange them on the shelves, for that subject is Classification, in which no course is offered this summer.

MISS KAUFFMANN, MISS DAVIS.

[3 points\*]

9.00 to 10.00 daily, and 1.00 to 2.00 Tuesday and Thursday, and seven laboratory periods a week to be assigned. Fee, \$30.

## REFERENCE S 1.

The principles and methods of reference and research work are discussed, and typical reference books commonly used in the average library are examined and used.

In addition ten periods are devoted to presentation by five specialists of some of the methods and reference books valuable in the fields of art, science, business books, insurance; and in school libraries and children's departments.

The reference collection of the College Library is available for

\* *This credit in points is granted only to students who have passed satisfactorily at least three full years of academic college work.*

the work connected with the course, and other libraries in the vicinity may be used.

Mrs. HARTZELL, assisted by special lecturers. [2 points \*

*11.00 to 12.00 daily, and 1.00 to 2.00 Monday, Wednesday, Friday, July 5 through August 1.* Fee, \$20.

### TEXTBOOKS

- CATALOGUING S 1. A. L. A. catalog rules.\*\*  
Sears, M. E. List of subject headings for small libraries, 3d ed. rev. and enl.\*\*
- REFERENCE S 1. Mudge, I. G. New Guide to Reference Books, 5th ed., 1929.\*\*

There is a slight additional expense for materials which may be obtained at the Simmons Coöperative Store on the opening morning.

*\* This credit in points is granted only to students who have passed satisfactorily at least three full years of academic college work.*

*\*\* Students in the regular School of Library Science are glad to rent their copies for the summer.*

## SCHOOL OF PUBLIC HEALTH NURSING

AT THE request and with the coöperation of the Massachusetts League of Nursing Education, the School of Public Health Nursing offers courses to nurses who are instructors, supervisors, or head nurses in schools of nursing, or who wish to prepare for such positions.

For admission to the courses in the summer session applicants must be registered nurses, graduates in good standing of schools of nursing of approved standards. Applicants must, in addition, have graduated from approved high schools or have received an equivalent preliminary education. With the approval of the Director occasional exceptions may be made, provided professional qualifications are exceptional.

Applicants should fill out a special form which may be obtained from the Director, School of Public Health Nursing, Simmons College, Boston.

### COURSES IN NURSING

MARJORY STIMSON, A.B., R.N., S.B., *Assistant Professor of Public Health Nursing, and Acting Director of the School of Public Health Nursing*

ANTOINETTE ROOF, *Associate Professor of Education, Emerita*

CAROLINE MAUDE HOLT, PH.D., *Associate Professor of Biology*

HELEN WOOD, A.B., R.N., A.M., *Formerly Director, School of Nursing, University of Rochester, New York, and Assistant Director of the Summer Session*

ISABEL HUNTER DILL, R.N., *Formerly Instructor, St. Luke's Hospital, New Bedford, Massachusetts*

The fees for each course are stated in the description of the course. Laboratory fees are in addition to the tuition fee.

In order to register for a programme of more than two

courses, permission must be secured from the Director of the School.

### BIOLOGY S 1.

*Anatomy and Physiology.* This course includes a study of anatomy and physiology and the problems of teaching these subjects in schools of nursing. Lectures, demonstrations, recitations, and laboratory exercises.

Associate Professor HOLT.

[2 points

9.00 to 12.00 Tuesday and Thursday; 9.00 to 10.00 Wednesday.

Tuition fee, \$20; laboratory fee, \$5.

### EDUCATION S 1.

*Principles of Teaching.* This course presents principles and methods of teaching, with special application to the needs of head nurses, supervisors, and instructors in schools of nursing.

Associate Professor ROOF.

[2 points

3.00 to 4.00 daily.

Tuition fee, \$20.

### NURSING EDUCATION S 1.

*Teaching in Schools of Nursing.* This course is a study of the standard curriculum, its use and adaptations. It includes also a discussion of such topics as classroom management, text and reference books, laboratory work, examinations, and grading in schools of nursing.

Miss WOOD.
